# ANNUAL REPORT

OF THE

# POLICE DEPARTMENT

FOR THE YEAR 1915.

#### 1915-16.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

# POLICE DEPARTMENT.

(ANNUAL REPORT FOR THE YEAR 1915.)

Printed under No. 31 Report from Printing Committee, 12 April, 1916.

#### The Inspector-General of Police to The Honorable The Chief Secretary.

Sir,

Police Department, Inspector-General's Office, Sydney, 7 April, 1916.

I have the honor to submit, for the information of the Honorable the Chief Secretary, annual report covering the operations of the Police Department for the year ended 31st December, 1915.

#### Criminal Statistics for the State Generally.

In the first place I would invite attention to the returns furnished by the various Superintendents of Police throughout the State which have now been compiled in the form of a return and are contained in Appendix A. These figures embrace those cases which have been dealt with by the Police, either by  $A_{\text{yrendix}} A$ . for the years 1912, 1913, 1914, and 1915. The figures for the year 1915 show a total net decrease of 10,013.

		1912.	1913.	. 1914.	1915.		over 1914. Decrease.
Offences against the person		4,534	4,901	5,132	4,685		447
Offences against property with violence		1,071	1,350	1,452	1,480	28	
, Offences against property without violence		5,859	6,153	6,206	6,731	525	
Offences against the currency		118	83	123	110		13
Offences against good order		52,084	52,720	53,689	42,210		11,479
Offences not included in the preceding	,	23,291	25,057	25,865	27,238	1,373	
		86,957	90,264	92,467	82,454	1,926	11,939
Total decrease							10,013

It will be seen that the decrease is comprised chiefly of cases against "good order," and in this connection it may be explained that there was a decrease in cases dealt with under the heading of "Drunkenness" of 7,736, and "Using obscene, threatening, or abusive language," 1,716. As against the total decrease of 11,939 must be quoted an increase of 525 cases of "Offences against property without violence" and 1,373 cases of miscellaneous offences. In considering the decrease in offences against "good order," it is necessary to point out that contributing factors to such decrease have been the occupation of police upon special duties consequent upon the war, and the absence of over 150 members of the Force at the front.

The more serious classes of offences reported, as recorded in the Police Gazette, show a net increase Serious offences of 470 cases as compared with 1914; the increase in 1914 as compared with 1913 was 395. Details are recorded in *Police Gazette*, namely :---Murder, an increase of 6; arson, 5; stealing from the person, 58; forgeries, false pretences, Appendix B. stealing, &c., 337; embezzlement, 39; burglaries, 116; horse stealing, 35; cattle stealing, 54; and sheep stealing, 28. The principal decreases in cases reported appear under the following headings :- Attempted murder, a decrease of 12; bodies of infants found, 4; robbery under arms, 11; garotting, 10; assault and robbery, 4; wounding and assaults, 22; spurious coin uttered, 10; reports of jewellery lost or doubtfully reported stolen, 61.

Breaches of the Immigration Restriction Act reported have fallen from 98 cases in 1914 to 61 for Immigration Restriction Act last year, a decrease of 37 cases.

There were 31 breaches of Section 463 of the Crimes Act by prisoners discharged on license, an Prisoners increase of 10 as compared with 1914. 328 first offenders were discharged under the provisions of the Crimes Act. Crimes Act, being an increase of 52. Of these 102 were convicted at the Higher Courts and 226 at the Lower Courts. There were 7 breaches of the conditions of release during the year, a decrease of 12.

66101 \*930-A

Wife and child deserters arrested. Committals to Circuit Courts and Courts of Quarter Sessions. Immigration Restriction Act. Extraditions.

Inquests.

Stolen horses, cattle, and sheep recovered. Habitual criminals.

Apprehens'ons

In fresh cases brought under notice during the year concerning deserted wives and children the police arrested 405 delinquents, and in 118 other cases the Department was instrumental in provision being made for the families. There is no doubt that many who have avoided their responsibility in this respect have enlisted for active service.

The committals to Circuit Courts and Courts of Quarter Sessions totalled 1,374, an increase of 7.

There were 61 convictions under the Immigration Restriction Act, a decrease of 37.

Extraditions to places outside the Commonwealth were as follow: 2 to Johannesburg, South Africa ; 2 to New Zealand ; and 1 to Java ; total 5. An increase of 1 over the previous year.

1,570 inquests were held on the bodies of deceased persons, as against 1,602 in 1914. In 140 cases death was attributable either directly or indirectly to intemperance. There were 154 inquests on fires, being a decrease of 27 as compared with 1914. Of these, 52 were returned as "wilful," 56 as "accidental," while in the other 46 cases the cause was not specified.

In 336 instances of horses, cattle, and sheep stolen, the animals were recovered.

Since the date on which the Habitual Criminals Act was assented to-20th September, 1905-63 persons have been declared to be habitual criminals, viz :--

 		2	1912				2
 		10	1913				6
 		11	1914				3
 		9	1915				3
 		9	1			-	
 		2	1	Total			63
 		6					
·	·		$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$

Twenty-five habitual criminals (male), were under detention on the 31st December, 1915-not including 2 males who were confined in the Hospital for the Criminal Insane.

#### Criminal Statistics for the Metropolitan District.

The Criminal Statistics for the Metropolitan District constitute a large proportion of the figures for the whole State, and are therefore worthy of special reference.

During the year, 25,958 persons were arrested in the Metropolitan District, and 4,452 proceeded and summonses. against by summons, making a total of 30,410 (5,160 being females). This shows a decrease of 4,406 on the previous year.

The totals under the different headings are as follow :---

	1912.	1913.	1914.	1915,	Increase or Decrease of 1915 over 1914,
1. Offences against the person	1,614	1,775	1,940	1,862	Decrease 78.
2. Offences against property with violence	604	936	1,001	1,018	Increase 17.
3. Offences against property without violence	3,112	3,245	3,159	3,509	Increase 350.
4. Forgery and offences against the currency	65	24	49	50	Increase 1.
5. Offences against good order	23,240	22,769	21,752	17,126	Decrease 4,626.
6. Other offences not included in the preceding	8,026	7,084	6,915	6,845	Decrease 70.

The increased number of cases dealt with in connection with offences against property without violence results from the increased number of arrests in Simple Larceny.

Offences against property with-out violence. The large decrease of arrests, &c., for offences against good order is due chiefly to a decrease of Offences against 4,498 in the number of cases of drunkenness dealt with.

During the year, 301 men were summoned and arrested for failing to maintain their wives and Two additional constables were detailed last year for duty at the Children's Court to trace families. defaulters ; 254 offenders were arrested, and 39 traced to other States. At present there are 4,026 maintenance orders on the registers, and during the past year £81,116 was disbursed by the police in payment of orders

Crimes reported.

good order.

cases.

Maintenance

The number of cases of crime reported to the Police in the Metropolitan District during the year was 6,453, as against 8,001 for the previous year. Of this number (6,453) 3,352 cases have been cleared up, and out of £35,471 value of property reported stolen, £22,563 was accounted for or involved in the arrests made.

#### Important Criminal Cases.

Of the murder cases dealt with during the year may be specially mentioned the occurrence at Broken Hill on 1st January when a picnic train was fired upon by two supposed Turks whose minds had evidently become unbalanced by the war. Four persons were killed and seven wounded by the offenders who were pursued by Police and civiliansand eventually surrounded. After the interchange of shots between the fugitives and their pursuers, during which Constable Mills was wounded, the two fugitives were finally shot down. One was dead and the other subsequently died in the hospital. The murder of a woman in Prince Alfred Park, whose remains disclosed evidence of death having been caused by internal injuries, the result of outrage and maltreatment; a Government Reward of £200 was offered, and a suspect arrested and committed for trial. The murder of a man and his sister by the latter's husband at Petersham, a case, the circumstances of which were of a very callous and revolting nature, both persons being killed with an axe in the presence of offender's son, aged 15; offender was found guilty and sentenced to death ; he appealed, but the verdict was upheld by the Criminal Appeal Court, the sentence afterwards being commuted to one of penal servitude for the term of his natural life. The murder of a woman, aged 40, by a man with whom she had been living and who, while under the influence of liquor and in a spirit of resentment following upon deceased having ejected him from her house, returned to the

house

house and shot her; he was committed for trial and sentenced to death, the sentence being subsequently commuted to penal servitude for life. The murder of a woman, 53 years of age, of questionable morality, on the sports ground at Dubbo, by a man under the influence of liquor, who entertained a grudge against the victim; the offender was committed for trial on the capital charge, but convicted of manslaughter, and sentenced to 10 years' penal servitude. The murder of a Chinaman, 62 years of age, in a lane off Goulburn-street, where he was assaulted and robbed by two men; an old offender was arrested and committed for trial for wilful murder. He was subsequently found guilty of manslaughter, and sentenced to 12 years' penal servitude. The arrest of four offenders, three of whom were committed for trial for the murder of another Chinaman.

The following arrests may, perhaps, also be mentioned, viz. :--A criminal for stealing in twenty- Important five different dwellings, a clever female forger on twelve charges of forgery, a sodomist, who was extraditions. committed for trial on six charges. The arrest and extradition of an offender for clever and extensive bank frauds in South Africa, and the arrest of an offender sought for by the West Australian police for extensive bank forgeries in that State. Attention might also be drawn to the extradition of an offender from London for extensive frauds in this State, and also the extradition from South Africa of a man for extensive forgeries on the Government Savings Bank of New South Wales.

#### Industrial disturlances.

During the year a number of industrial disturbances in various centres came under notice, but in the majority of cases there was no need for extra police supervision, and generally the disputes were conducted in a quiet and orderly manner.

#### Missing friends

One thousand four hundred and seventy three (1,473) inquiries have been made in regard to missing friends. This number includes 528 inquiries from Great Britain and other parts of the Empire, and 152 from foreign countries. Of the total number, 1,006 have been traced. By comparison, it may be stated that out of 1,471 inquiries received during the previous year 929 were traced.

#### Finger prints

During the year occasion arose to send an officer to Great Britain on an important police mission, Latest and the opportunity was availed of to enable Sergeant First-class Fowler, the senior officer dealing with at Section the finger print system in this State, to make bimself conversant with the latest developments with Yard. regard to the finger print system at Scotland Yard. This officer upon his return in October, furnished a comprehensive report, covering the methods at present in adoption at Scotland Yard, Improvements and there is no doubt that the value of this class of police work will be considerably enhanced in system in New South by the improvement in methods which are now being introduced. Wales

As will be seen from the report furnished in Appendix C, 2,213 identifications of offenders Appendix C. were made during the year, this being the best result attained since the adoption of the system by the Identifications. Police Department, and an increase of 51 on the figures for last year.

During 1915, 450 articles were brought to the office for examination, while the officers connected Examinations.

with the work made 130 visits to the city, suburbs, and country for a similar purpose. The finger prints of 29 unknown deceased persons were taken, and by this means six of the bodies deceased persons.

For the period under review, 12 persons were arrested and charged with 15 offences, in respect of Finger prints as which finger prints formed the principal evidence against them; 10 pleaded guilty and 2 not guilty, but the latter were convicted, and subsequently admitted their guilt.

A statement is also contained in Appendix C, showing the interchange of records between Appendix C. Interchange of records between interchange of records between records. New South Wales and other places and the results achieved.

#### Oriminal photographs.

During the year 1915, one thousand one hundred and thirty-eight (1,138) criminal photographs and distributed were received from the Prisons Department for distribution in the usual manner. Copies of these photographs have been prepared where necessary, and 8,289 photographs were sent to the various States and New Zealand, whilst 34,077 were supplied to the city and country districts for the use of the Police in this State. One thousand three hundred and twenty-one (1,321) photographs were received by the Department from other States of the Commonwealth and New Zealand.

These has been a large increase in the amount of photographic work performed during the year.

#### Metropolitan Licensing Inspection

On the 31st December, 1915, there were six hundred and thirty-nine (639) hotels in the Metro-Hotels. politan district, being a decrease of one during the year. One license was granted, one license lapsed, and one was surrendered.

In view of the prominence of liquor questions at the present time it may perhaps be desirable to Decrease in repeat the figures quoted in my last report, which clearly show the extent of the reduction in the number hotels. of licensec premises in the Metropolitan district, and a very considerable increase in the ratio of the population to each of the existing licenses. At the commencement of the Act, on the 1st January, 1882, there were 848 hotels in the (then) Metropolitan district, for a population of 248,231, or one hotel for every 293 persons. Approximately 151 new publicans' and conditional licenses have been granted, and 19 added through alterations in the boundaries, making a total of 1,018. On the 31st December, 1915, after 34 completed years, there are 639 hotels for an approximate population of 670,000, or one hotel for every 1,048 persons; approximately the total number of hotels closed during the period covered from 1st January, 1882, to the 31st December, 1915 (34 years), amounts to 379.

During the year the Police lodged in all seven objections to the renewal of publicans' licenses, Objections to licenses, principally on the grounds of structural defects, while in three cases objection was taken to the manner in which the hotels were conducted. As a result of these objections, three renewals were granted, two refused, and two withdrawn.

Newcastle district.

Regular and continued improvement is still being made in the class of buildings in the district. Forty-eight applications for rebuilding and material alterations were made during the year, and of this number forty-seven were granted. In many instances, as was the case during the previous year, building improvements and material alterations were done voluntarily by the owners of the buildings.

There are now 97 additional bars, held by 83 licensees in the Metropolitan Licensing district, being a decrease of one during the year.

There has been a decrease of two in the number of registered clubs in the Metropolitan district. One renewal refused, and one lapsed. The present number amounts to forty-six. Twenty-eight clubs have obtained exemption from all provisions of the Liquor Act, except the payment of the annual registration fee. Some of the Bowling and Athletic Clubs, principally playing in the open air, have some slight conditions imposed upon them as to hours of selling, &c. The Clubs referred to are as follow :--15 recreation and bowling, 8 residential and social, 5 social and literary, 6 golf, 3 social and sporting, 4 rowing and yachting, 1 gun, 1 lawn t-nnis, 1 cricket, 1 bicycle, and 1 automobile. Total, 46. The whole of the clubs still continue to be well conducted and used in a bona fide manner for the purposes defined in their applications for registration.

Particulars are given hereunder of the various licenses in force in the Metropolitan district at the end of the year :-

Ninety four (94) Spirit Merchants' licenses, a decrease of two during the year. These licenses are held principally by merchants, wholesale wine merchants, and grocers. They do not come within the operation of the Local Option vote, are all well-conducted, and rarely cause any trouble to the Police.

Three (3) Brewers' licenses-the same number as last year. These licenses also are not affected by the Local Option vote.

One hundred and forty-nine (149) Billiard Licenses-a decrease of three during the year. They are principally held by hotel keepers, while the remainder are in Billiard Saloons only. As a rule they are well conducted, and give little trouble.

Twenty (20) Packet Licenses-one more than last year. These licenses are held by captains of steamers engaged in the coastal trade.

Two hundred and thirty-nine (239) Colonial Wine Licenses-a decrease of 6 during the year. Twenty-six (26) new licenses were applied for. Of this number 5 were granted, 7 refused, 11 withdrawn, and 3 applicants failed to appear in support of their applications.

In 1903, there were three hundred and sixty-four (364) Colonial Wine Licenses in the district, while at the present time-that is, 12 years after-there are only two hundred and thirty-nine (239), being a decrease of one hundred and twenty-five (125), notwithstanding the fact that a number of new licenses have been granted each year. These existing licenses are principally held by grocers, restaurant and oyster saloon keepers, fruit shops and wine shops, and the majority of them are well conducted. A statement of the convictions under the Liquor Acts will be found in Appendix D.

The number of convictions totalled 55, and fines and costs aggregating £180 14s. were imposed.

Particulars of the convictions against holders of Colonial Wine Licenses for the year are also set out in Appendix D. Fines aggregating £49 16s. were imposed.

The quality of the liquor sold still appears to be well maintained. During the year, 519 samples of liquor were taken from hotels in the Metropolitan Licensing District from bottles and vessels as supplied to customers. None of the samples was found, on analysis, to contain anything deleterious or injurious, but 29 samples were found to be below the standard strength. In these cases proceedings were taken, with the result that the fines and costs imposed aggregated £59 14s.

Since the fixing of the standards in 1901, 5,774 samples of liquor have been taken by the Licensing Inspectors.

Returns are appended (vide Appendix E) showing the annual business dealt with during the year 1915, and also the number of licenses in existence in the Metropolitan district on the 31st December of each year-1892 to 1915.

It is to be regretted that night clubs made their appearance in the city towards the end of the Vigorous police action has been taken for their suppression. The clubs were raided when sufficient year. evidence could be obtained to sustain a prosecution. One club was raided on two occasions; 200 persons were found on the premises, and a quantity of liquor was seized. At the first raid a considerable quantity of champagne was confiscated, and on the second occasion, although a similar quantity of liquor was not found, ample testimony was forthcoming as to the extent of the orgies. Owing to the manner in which these clubs are conducted, and the fact that the police have no power of inspection, I have already made strong representations to the Chief Secretary with a view to the question of special legislation being considered in the near future.

#### Water Police.

The Water Police staff and equipment were fully employed in attending to the arrival and departure of vessels, and affording reasonable protection to the enormous quantity of luggage and valuable merchandise handled during the year. It is estimated roughly that two thousand one hundred (2,100) vessels entered and left the port of Sydney, with a gross tonnage of over eight and a half million tons, and carrying over a quarter of a million passengers.

The vast traffic carried by the ferry companies from the Circular Quay jetties necessitated close and constant supervision. It is estimated that there were 31,793,512 passengers during the year.

Twenty-five dead bodies were recovered from the harbour, in many instances after dragging operations had been carried on for some days.

Assistance was rendered to a large number of sailing boats that had capsized in the harbour, and their crews were rescued without loss of life.

H.M.A. cruiser "Brisbane" and H.M.A. destroyers "Swan" and "Torrens" were successfully launched from Cockatoo Island during the year, and although there was a large number of people present and afloat in steamers, motor and other boats, there was no mishap of a serious nature.

The work of the Water Police in Newcastle has been, as compared with other years, considerably lessened by the decrease in shipping, but this has been counterbalanced by the large amount of work involved by the continued necessity for vigilance in connection with alien enemies generally.

#### Traffic.

Public vehicles have been regularly inspected, both by day and by night, and, generally speaking, Inspection of public vehicles. have been found to be in fairly serviceable condition.

Two thousand seven hundred and fifty eight new motor cars were registered during the year ; motor Motor vehicles. cycles have also increased in number. The total registration under all headings increased from 41,132 to 43,898.

One thousand one hundred and eighty-four horses were reported as being in an unfit condition, and Unfit horses. the owners were directed to discontinue using them. Eighty-two convictions were recorded for serious offences of this description.

Several instances have occurred in which the Police have again shown commendable activity and Runaway horses and vehicles. bravery in stopping runaway horses and vehicles in public streets.

The records for the year show that 1,880 vehicle accidents were reported as having occurred in Accidents. public streets in the Metropolitan area. Of these 44 were fatal. The figures include 368 (9 fatal) in connection with tramcars, 315 (15 fatal) in connection with motor vehicles, and 265 (16 fatal) caused by horse vehicles.

A Regulation was passed during the year prohibiting drivers of motor and other vehicles from passing trancars for the time being stopped for the purpose of taking up or setting down passengers until the roadway is clear of persons entering or leaving such tramcar, a practice which had previously resulted in many complaints.

During 1915, 617 articles left in public vehicles were returned by drivers, and 292 of such articles Lost property were afterwards handed over to the owners. The sum of  $\pounds 47$  2s. 4d. was paid as compensation to drivers. Under the recent Act, unclaimed articles are now returned to the drivers, after being held for three months, and 175 articles were so returned.

The Motor Traffic Act was amended in 1915, and it is anticipated that the new provisions will Motor Traffic tend to better administration. Special powers have been obtained for dealing with cars owned by traders Act. and manufacturers and for cars visiting this State.

The Act imposing a tax upon motor vehicles was extended to 30th June, 1916.

The revenue for the year 1915, under the Metropolitan Act, decreased by £183, and under the Revenue. Motor Traffic Act, increased by £3,139, making a net increase of £2,956, the total revenue from both Acts being £23,075 8s.

During the year the Police, who hitherto carried out the clerical work in connection with the Clerical work registration and licensing of motor vehicles, drivers, &c., were replaced by Public Service Officers. The Public Service whole of the accounts portion of the work is now performed by Public Service Officers. Officers

Detailed statements of the traffic work are set out in the Appendix F.

The introduction of one way traffic in certain streets, and improved regulations for pedestrian traffic One-way traffic. adopted during the year have been attended with good results, while the erecting of notices requesting foot passengers to keep to the right has been responsible for a marked improvement in the regulation of pedestrian traffic in congested city thoroughfares.

#### Weights and Measures.

Regular inspections have been made of weighing and measuring appliances in use in the Metropolitan Inspection, Metropolitan district, 9,750 premises having been visited and 78,349 articles examined, a decrease of four premises and district. 1,498 articles as compared with the previous year. As a general rule, the appliances were found to be in a satisfactory condition. The number of prosecutions was slightly greater than for the previous year.

Inspections in country districts show an all-round decrease, principally due to a number of vacancies Inspection in for Inspectors of Weights and Measures not having been filled, and the curtailment of expenditure conse-districts. quent upon the war. There were ten prosecutions in such districts.

From the return of indoor work of the Metropolitan office it will be seen that 8,070 weighing instru-Verification in ments, 40,463 weights, and 14,436 measures were presented for verification. This is an increase of 369 district. weighing instruments, 3,600 weights, and 192 measures as compared with the previous year.

The fees received for this work totalled £1,006 19s. 10d., showing an increase over 1914 of Fees £79 19s. 4d.

In accordance with instructions to curtail expenditure, the readjustment of country local standards Re-verification has been suspended. Since the Police assumed control of weights and measures 79 sets have been repaired stanuards. and readjusted, and there still remain 40 sets to be dealt with. In some cases there is no record as to when these appliances were last tested—some have certainly not been tested for twenty years or more. Others are undoubtedly useless until readjusted, and in every instance it should be pointed out that readjustment is necessary.

The half-yearly inspection of weighing machines used in coal mines for determining the wages of Inspection of miners has been carried out in accordance with the Coal Mines Regulation Act. Generally, these appli- machines at coal mines. ances were found to be satisfactory, and suitable action was taken in regard to those found incorrect.

Inspections under the Bread Act were made in the Metropolitan district at 131 bakehouses and 288 Bread shops at which bread is sold, and in country districts at 452 bakehouses and 225 shops. In all, 15 inspection prosecutions for light weight bread were instituted, and fines aggregating  $\pounds 216$  14s. were imposed.

Attention is invited to the various tables set out in Appendix G.

Appendix G.

#### Legislation.

In February, 1915, a new Weights and Measures Act was passed with a view to bringing the law New Weights of Weights and Measures in this State into line with that already existing in Great Britain, Canada, and and Measures Continental countries. It also contains many provisions for the public protection, which the Society of Inspectors of Weights and Measures in Great Britain has been urging for years. In order to effectively carry out the specified duties under this Act, fresh administrative machinery must be provided. It was considered evident that increased Police assistance could not be made available at present, and that, moreover, it had become highly desirable that the work should be carried out by a staff separate and distinct from the Police Force, so that the Police might be released from the performance of a duty which in

the

Appendix F.

Motor Tax.

the present circumstances could only be undertaken at the cost of undue encroachment upon legitimate Police work. As the Act cannot be enforced until the administration has been provided, approval has been given for the law to remain in abeyance temporarily, and an Amending Bill was prepared to postpone its operation until the 30th June, 1916.

during the year an attempt was made to nullify the Act by proving that "fancy bread" did not require to be of any specified weight. This contention, which would have destroyed any usefulness in the Act, failed

victimised by fraudulent horse dealers. The suggestion has been made that an Act is much needed, making it obligatory for horse-dealers to obtain a license to carry on their business, in order to enable fraudulent

both at the Police Court and at the Quarter Sessions.

The many deficiencies in the present Bread Act considerably limit the powers of inspection, and

Complaints have been received by the Police from time to time from persons who have been

Deficiencies in Bread Act.

dealers to be speedily detected and dealt with. The question of amending the "Juvenile Smoking Suppression Act, No. 11, of 1903," to empower the Suppression Act. Police to deal effectively with the suppression of juvenile smoking itself, in addition to the penalty for the sale of tobacco to persons under 16 years of age, has been submitted.

#### General Work of the Department.

Administration.

Military matters

Reduced

strength of Police Force.

Women Police.

Detectives and lain-clothes

Police

rules.

The outstanding feature of the Police Administration during the year under review has been the increased activity called for generally on the part of the Police, by reason of the existing condition of affairs arising out of the war. The Police have co-operated to the fullest extent with the Military authorities and other organisations, with a view to facilitating the work of recruiting, particularly in the country The Department has also been in close touch with the Military in various matters affecting districts. prosecutions under the War Precautions Act and a varied number of functions, entailing the making of confidential inquiries, the securing of evidence, the serving of processes, laying informations and furnishing reports in regard to War precautions and other matters of military significance. The internment of enemy subjects, examination of passports, permits and passengers (in conjunction with the Military authorities) in connection with persons travelling by ocean-going vessels, and the rendering of assistance generally to the Intelligence Section of the Military Establishments, have also claimed attention.

Since the commencement of the war 157 Police have enlisted, and, in accordance with the decision of the Government, their places have been kept open. The Department has not only been faced with this shortage in the strength of the Force, but it is being found increasingly difficult to secure sufficient suitable recruits to fill ordinary vacancies caused by resignations, retirements, &c. In these circumstances, the Minister has laid it down that it would be inimical to the public interest to further reduce the strength of the Force, and Police enlisting. the Military authorities have concurred in an embargo being placed upon further members of the Force being allowed to enlist for Military Service. So many and varied have been the claims made upon the Force that, in order to afford even limited protection to property and preserve law and order, it has become imperative wherever feasible to relieve the Police from the performance of duties extraneous to what may be considered as legitimate Police work.

Two Women Police were employed early in the year. In a restricted sphere of operations their s have been found to be of a satisfactory nature. They have performed useful duty in regard to services have been found to be of a satisfactory nature. women and children without unduly encroaching upon the work of a similar character already attended to by the lady inspectors under the State Children's Relief Department.

The reorganisation of the Criminal Investigation Branch has resulted in a marked improvement in the duty performed by the men attached thereto. The over-lapping which hitherto existed in connection with plain clothes police at Divisional Stations is now avoided, as all men engaged in plain clothes in the detection of crime, whether performing duty at the Criminal Investigation Branch or at Divisional Stations, are under the command of the Metropolitan Superintendent and the personal supervision of the Officerin-charge of the Criminal Investigation Branch.

E'ght-hour shifts of duty. The Eight-hour shift system, introduced in June last at all centres where Police supervision is provided throughout the twenty four-hours, is working satisfactorily.

I mended Police The rules for the governing of the Force, which had previously existed were repealed in March last, and a new code of rules substituted therefor. The new rules provide for the examination of men prior to promotion, to show that they are educationally capable of discharging the duties of a higher rank, but the main essentials to promotion are still good character, and the efficient discharge of practical police E aminations. Work. The examinations have disclosed a high standard of intelligence in all ranks. Over 400 men passed the required standard without any difficulty.

The matter of increased pay to the Police was brought under the notice of the Chief Secretary, and Increased pay. an intimation received that the question will be considered when funds will permit.

The Broken Hill District, which has previously been supervised by a Superintendent, with headquarters at Deniliquin, was, early in the year, formed into a separate district under the supervision of an Inspector stationed at Broken Hill. The area placed under the control of the Inspector at Broken Hill embraces the district west of a line running from the Murray River, midway between Euston and Wentworth, to the Queensland border, via Wilcannia.

On the 1st March, 1915, the Police Superannuation Board was rearranged. It formerly consisted of the Inspector-General of Police, a Stipendiary Magistrate, and the Metropolitan Superintendent of Superannuation Police, but is now composed of the Inspector-General of Police, the Chairman of the Public Service Board, and the Under-Secretary of the Chief Secretary's Department.

> A signal lamp has been installed as an experiment at the corner of Cleveland-street and Cityroad, and the question of further extending the system will be considered at a later date.

A commencement has been made to bring the sanitary conveniences at Metropolitan Stations up to conveniences in present day requirements, and already the majority of such cells have been attended to. (See Appendix H.)

Sanitary

During

During the year several alterations have been approved in connection with police uniform and Uniform and equipment, and will be brought into use as early as practicable. The changes embrace the following :-Officers.—Rank to be denoted by badges on the shoulder straps; new caps of military pattern. Mounted Police.—White helmets of a new shape; boots of lighter and better quality leather; new style of leggings; alteration in shape and weight of saddles; khaki cord riding pants and khaki drill jumpers for summer wear in hot districts ; new caps of military pattern. Foot Police.-New caps of military pattern in lieu of the blue helmet and night duty cap now worn; alteration in pattern of greatcoats, with the view of securing better protection to the men. Experiments are being made with khaki uniform in hot districts of the State. The general adoption of the material for use by foot police will be considered when the results of the present trial are known.

In view of the importance of the training of all recruits, the Metropolitan Instruction Classes have Training of probationar been removed to the Police Depôt, and placed in charge of a special instructor who, with assistants, constables. devotes his whole time to this important subject. All probationary constables, whether mounted or foot, are now required to pass through the full instruction course. The subjects dealt with embrace elementary law, Acts of Parliament relating to Police duties, court procedure, and practical police work generally. The time and attention now devoted to the training of young constables must ultimately bring about a marked improvement in the efficiency of the entire service.

As evidence of the patriotism of the members of the Force, it may be stated that during the year they Fatriotic funds have, in conjunction with the Metropolitan Fire Brigade, been either directly or indirectly responsible for raising contributions to patriotic funds amounting in all to  $\pounds 7,745$ , bringing the total contributions made since the commencement of the war up to over  $\pounds 10,000$ . This sum will of course be considerably augmented during the year 1916 by the proceeds from the Police and Firemen's recent carnival.

Approval has been given in those cases which can be suitably dealt with by the Police Superannua-Pensions and tion Board for pensions and gratuities to be granted to men killed or permanently incapacitated whilst on men killed in military service.

In all, 157 members of the Police Force and 5 clerks have volunteered for active military service, military services and, at the end of the year, 135 police were still on military duty. Sixteen deaths have been recorded, and a number of casualties have been reported. I venture to invite attention to the Roll of Honor contained in Appendix I. The sympathy of all ranks of the Service is extended to the relatives and friends Appendix I. of those who have fallen and also to those who have been wounded, and it is sincerely hoped that the wounded men may soon be restored to health and strength.

The need for effecting as many transfers from outlying districts as is possible and consistent with Transfers from economy and efficiency has been fully kept in view. Eleven (11) such transfers have been made from the districts. Bourke district, six (6) from the South-Western district, and five (5) from the Broken Hill district, to places where the climate is cooler and the conditions more favourable.

During the year new stations were established at the following places, viz. :---

Metropolitan District		 	 	Campsie.
				Blakehurst.
				Bondi.
				Freshwater (Manly).
Western District		 	 	Tottenham (temporary).
				Newnes (re-established).
				Tarana (temporary).
				Cullen Bullen.
Murray District		 	 	Yanco (temporary).
South-western Distric	et	 	 	Clare (re-established).

The station at Gilgunnia (South-western district) was abolished.

The station at Gilgunnia (South-western district) was about the station at Tareena was changed to Cal Lal, and Germanton was changed to Change of m of stational of stational distributions. Holbrook.

Police Launches, Motors, and Bicycles.

A large motor launch was provided during the year for patrol work in the harbour, and the Water Water Police Police have thereby been afforded increased facilities to follow up thieves and protect life and property. launch. The present steam launch "Argus" is no longer suitable for police work, being cumbersome and costly to run, and the experience gained with the new launch provided makes it very clear that a saving of time, fuel, and labour would result from the steam launch being replaced by a motor launch.

During the year ordinary bicycles were supplied to the following Police Stations :--Wentworth ordinary Falls, Bankstown, Yanco, Kurri Kurri, Hornsby, Hunter's Hill, Guildford, Port Kembla, Hay, and <sup>bicycles.</sup> Katoomba.

A further motor cycle has been brought into use for traffic purposes in Sydney, making two in all. Motor cycles. These have been found very effective for the regulation of traffic. There is also a motor cycle in use at Condobolin for general police work. From the standpoint of economy and utility they have proved very satisfactory, and their use will be extended as funds permit.

The introduction of a patrol motor, the first of its kind in Australia, has been a distinct benefit to Patrol motor. the Department.

So far as concerns the cost of running the motor cars and motor cycles used by the Department, it cost of running may be mentioned that during the year the cost of running has amounted to £752 10s. 9d. (exclusive of depreciation), the number of miles driven being 48,264, at an average cost per mile, in the case of motor cars, of 5-62d., and of 78d. in the case of motor cycles; 2,419 calls were received by the police in charge of the patrol motor, which carried 3,353 persons, while the motor prison van was responsible for carrying a total of 5,051 persons. The police using the traffic motor cycles cautioned 4,686 persons, furnished 565 reports, and issued 482 summonses, in addition to making 852 inquiries.

Establishment

· . .

New stations.

Station closed.

#### Establishment.

On the 31st December, 1915, the Force numbered 2,661, as against 2,677 on the 31st December, 1914. Details of the strength of the Force and the manner in which the Police are distributed throughout the State are furnished in Appendix J.

General conduct of the Police.

With the exception of one or two instances, no serious misconduct has come under notice during the year. The absence of so many men on military service, and the very considerable amount of extra duty and important and responsible work of every description which have called for action on the part of the Police, necessitated long hours and close attention in order to prevent inconvenience to the law-abiding community. The special call which, in the circumstances, has been made on the energies of every member of the Force has been ungrudgingly responded to, and it is obvious that without the hearty and loyal co-operation of all ranks it would have been impossible for the Police to have secured what, in the circumstances, must be considered highly satisfactory results.

#### Appointments, &c.

Applications for Police employ-

Add

ment.

During the year 882 applications were received for police employment, including 117 female candidates; of this number 481 were found unsuitable on the grounds of illiteracy, being over the statutory age, or being deficient in stature or horsemanship. The Police Surgeon examined 401, and of these 213 were rejected and 188 passed as fit. Of the latter, 40 have been appointed to the Mounted and 110 (including 2 females) to the Foot Police. These appointments have been made to fill vacancies caused from time to time by resignations, discharges on pension and gratuity, dismissals and discharges (including appointments of probationers not confirmed), also to provide additional police required at certain places.

The following figures show the manner in which the new appointments have arisen. It will be seen that only 150 Police were available for the 169 vacancies mentioned below :----

	Tó fill	vacancies	caused	by	resi	gna	tions	s						60

#### Police Horses.

The police paddock of 235 acres at Rooty Hill, which was leased during the previous year for the purpose of providing a suitable turnout for police horses, temporarily incapacitated by various ailments, and others requiring a spell, also for breeding remounts for the Department, is still proving advantageous, although, on account of the limited area, breeding remounts cannot be undertaken on a large scale.

The amount estimated for forage for police horses was found insufficient, owing to the high prices ruling generally throughout the State. Severe drought conditions prevailed during the latter part of the year in some districts, and contributed largely to the excess expenditure of  $\pounds 2,825$ .

During the year I have visited the following districts and stations :---

West Maitland. Bourke and Brewarrina. Young. Bathurst, Orange, and Blayney. Armidale, Hillgrove, Uralla. Newcastle District. Tenterfield, Tabulam, Casino, Lismore, Bangalow, Mullumbimby, Byron Bay, Ballina, Alstonville, Wardell, Broadwater, Woodburn, Coraki.

Western District ...

Bulli and Wollongong.
Broken Hill, Broken Hill South, Cobar, Wilcannia, Silverton.
Wagga, Junee.
Uranquinty, The Rock.

Newnes (1). Cullen Bullen (1).

#### Certificates.

Appendix K.

Seventy-one (71) members of the Force succeeded in obtaining certificates, vouchers, medallions, or labels for ambulance work, after attending classes of instruction held at the Police Depôt during the year, under the auspices of the St. John Ambulance Association. There are now 579 Police of various ranks (as shown in Appendix K) who hold certificates of the St. John Ambulance Association, Railway Ambulance certificates, &c., and whose services are valuable in rendering First Aid in cases of accidents, especially in those portions of the country districts where a medical practitioner is not available.

Ambulance and Life Saving Classes.

Forty-one (41) Police were successful in the Life Saving classes held by the Life Saving Society (New South Wales Branch), and were awarded diplomas, honorary associate badges, medals, or proficiency certificates. As in the case of First Aid, Police are encouraged to become proficient in life saving, and are frequently able to assist in cases of apparent drowning. As will be seen from Appendix L, one hundred and ninety-five (195) Police of various ranks now hold Life Saving certificates.

Forage.

Breeding of remounts.

Inspection of country districts.

#### Acts of Bravery.

I am pleased to be able to record acts of bravery on the part of a number of members of the Police Force, notably those of :--

Name.	Constable.	Particulars.
Plumb, Thomas J	2nd Class	Courageous conduct in attempting to effect the arrest of a well- known criminal for stealing. He was attacked by three of the offender's comrades and violently assaulted, received a broken wrist, and other severe injuries, and was unable to resume duty for sixty-seven days. Constable Plumb, single-handed and attacked by overwhelming odds, displayed great courage in endeavouring to effect the arrest of the offender, who escaped but was afterwards arrested and sentenced to two years imprisonment for inflicting actual bodily harm on the
Matthews, Francis, and White, William H.	2nd "	Constable. Courageous conduct in effecting the arrest of four well-known criminals for stealing sugar from trucks at railway, Darling Harbour, the property of the Chief Commissioner for Rail- ways. Offenders were all sentenced to a term of imprison- ment.
Lake, Percy F	1st "	Courageous conduct in effecting the arrest of five offenders for breaking and entering, and conveying them to the Manly Police Station. Two of the offenders were sentenced to terms of imprisonment, and three were discharged.
Mills, R. J	lst "	Bravery in connection with the chase of the two murderers, supposed Turks, at Broken Hill. He was twice shot by these men, but continued to fight, and although two of his comrades offered to remove him to a place of safety where he could get medical attendance, he refused to permit them to run the risk of conveying him across the open country where they would probably have been struck.

#### Inspection by His Excellency the State Governor.

At the Police Depôt on the 15th July, 1915, His Excellency the Governor, attended by General Finn, presented Imperial Service medals to certain recipients in the presence of a large number of Police, mounted and foot, the Police Band being also in attendance.

#### New South Wales Police Band.

During the year 1915, the services of the New South Wales Police Band have been in great request in connection with public functions and charitable organisations. On a number of occasions recruiting meetings have been attended, as well as patriotic demonstrations of various kinds, particularly when troops have been about to embark or have been welcomed home. The musical direction is still in the hands of Captain W. G. Bentley, A.R.C.M., and to this factor is due in a very large measure the high position occupied by the Band as a musical combination.

#### Appendices.

- In addition to the Appendices previously adverted to, statements are appended showing the nationality of members of the Force (Appendix M); ages and length of service of the Police in the various grades (Appendices N and O); pensions and gratuities granted from the Police Superannuation and Reward Fund (Appendix P); and a list showing the buildings completed for the Department and repairs effected to existing Police buildings during the year (Appendix Q).

I have the honor to be,

Sir, Your obedient Servant, JAMES MITCHELL, Inspector-General of Police.

APPENDICES.

### TO APPENDICES.

- A. Criminal Return for the State of New South Wales for the year ended 31st December, 1915.
  B. Return of Offences reported, as published in the New South Wales *Police Gazette* for the years 1914 and 1915.
  C. Fingerprints : Number of identifications, and statement showing interchange of records.
  D. Statement of General Convictions under the Liquor Acts, and Convictions against holders of Colonial Wine Ligense for the year 1915. Number of Licenses existing in Metropolitan Licensing District, 1892-1915, and Annual Business, 1915.
- E.
- F. Metropolitan Traffic Act.
- Weights and Measures Act, No. 19, 1898.
- H. Return showing Police Stations in the Metropolitan District, where sanitary conveniences have been installed in cells, where the work is in course of construction, and also the number of cells respecting which the Public Works Department has been asked to report. •I. Roll of Honour.
