GOVERNMENT GAZETTE DEADLINES

Close of business every Wednesday

Except when a holiday falls on a Friday, deadlines will be altered as per advice given on this page.

Special Supplements

A Special Supplement or Extraordinary Supplement is a document which has a legal requirement to commence on a certain date and time. Release of Publication is required on the same day. The request for a Supplement is received from the department to the *Government Gazette* by telephone. The copy must be accompanied by a letter or email requesting the Supplement and signed by a Minister or Head of a Department.

NOTE: Advance notice of a Special Supplement is essential as early as possible on the day required. On Thursdays early notice is a priority and when possible notice should be given a day prior being the Wednesday.

Please Note:

- *Only electronic lodgement of Gazette contributions will be accepted. If you have not received a reply confirming acceptance of your email by the close of business on that day please phone 9228 3120.*

Preliminary

1 Application of this determination

This determination sets a methodology for fixing the maximum prices that Sydney Desalination Plant Pty Limited (ACN 125 935 177) (**SDP**) may charge for the Water Supply Services.

2 Commencement and term of this determination

- (a) This determination commences on the later of 1 July 2012 and the date that it is published in the NSW Government Gazette (**Commencement Date**).
- (b) The methodology for fixing maximum prices set out in this determination applies from the Commencement Date to 30 June 2017 (**Term**).

3 Declaration

- (a) Section 51 of the WIC Act provides that the Minister for Finance and Services may declare that a specified licensed retail supplier or licensed network operator is a monopoly supplier in relation to:
 - (1) a specified water supply service;
 - (2) a specified area; and
 - (3) a specified class of customers.
- (b) On 2 May 2011, the Minister for Finance and Services, under section 51(1) of the WIC Act, declared SDP to be a monopoly supplier in a network operator and retail supplier capacity:
 - (1) for the purposes specified in SDP's Network Operator's Licence and Retail Supplier's Licence; and
 - (2) for distribution within the area of operations as specified in SDP's Network Operator's Licence and Retail Supplier's Licence; and
 - (3) to specified persons or classes of persons as specified in SDP's Retail Supplier's Licence.

4 Referral to IPART

- (a) Under section 52(1) of the WIC Act, the Minister for Finance and Services may refer to the Independent Pricing and Regulatory Tribunal (**IPART**), for investigation and report, the determination of the pricing for any service in respect of which a declaration is in force under section 51 of the WIC Act.
- (b) On 2 May 2011, IPART received a referral from the Minister for Finance and Services (**Referral**) requiring IPART to determine the pricing for the following services provided by SDP (**Water Supply Services**):
 - (1) the supply of non-rainfall dependent drinking water to purchasers; and
 - (2) the making available of the desalination plant to supply non-rainfall dependent drinking water.
- (c) By virtue of section 52(2) of the WIC Act, the provisions of Part 3 of the IPART Act in relation to government monopoly services apply to and in respect of matters referred to IPART under section 52(1) of the WIC Act.
- (d) In investigating and reporting on the pricing of the Water Supply Services, IPART has had regard to a broad range of matters, including:
 - (1) the matters it is required to consider under the Referral in accordance with section 13(1)(c) of the IPART Act; and
 - (2) the matters set out in section 15(1) of the IPART Act.
- (e) This determination is made under section 52 of the WIC Act, pursuant to the Referral.

5 Methodology for fixing the maximum price

In accordance with section 13A of the IPART Act, IPART has established a methodology for fixing the maximum price that SDP may charge for the Water Supply Services. Reasons for the use of a methodology are set out, as required by the IPART Act, in schedule 6.

6 Pricing Schedules

- (a) Schedule 1 and the tables in that schedule set out the methodology to be applied to determine the maximum prices that SDP may charge for the Water Supply Services during a Plant Operation Period.
- (b) Schedule 2 and the tables in that schedule set out the methodology to be applied to determine the maximum prices that SDP may charge for the Water Supply Services during a Shutdown Period.

- (c) Schedule 3 and the tables in that schedule set out the methodology to be applied to determine the maximum prices that SDP may charge for the Water Supply Services during a Restart Period.
- (d) Schedule 4 and the table in that schedule set out the maximum pipeline charge.

7 Customer charges

- (a) This clause applies in respect of charges levied under schedule 2 of this determination.
- (b) Where:
 - (1) the total duration of a Shutdown Period is longer or shorter than SDP had expected; and
 - (2) SDP charges a customer more than it is entitled to under this determination,SDP must refund or allow a credit to the customer for an amount equal to the amount of that excess, together with interest calculated on that amount.
- (c) Where:
 - (1) the total duration of a Shutdown Period is longer or shorter than SDP had expected; and
 - (2) SDP charges a customer less than it is entitled to under this determination,SDP may require the customer to pay an amount equal to the amount of that deficiency, together with interest calculated on that amount.
- (d) Interest under this clause must be calculated from the date on which the relevant charge was due to the date of the refund, credit or payment (as the case may be) of the amount referred to in paragraph (b) or (c) calculated daily at the Interest Rate on the date of the refund, credit or payment.

8 Compliance with this determination

- (a) Under section 52(3) of the WIC Act, it is a condition of any licence held by a monopoly supplier that the supplier must comply with IPART's determination in relation to a matter referred to IPART under section 52 of the WIC Act.
- (b) SDP must comply with this determination in pricing the Water Supply Services during the Term.

Preliminary

9 Monitoring

- (a) Under section 85(1) of the WIC Act, IPART may monitor and report to the Minister administering the WIC Act on the extent to which SDP complies or fails to comply with the conditions in SDP's Retail Supplier's Licence and SDP's Network Operator's Licence.
- (b) Under section 87 of the WIC Act, IPART may require SDP to keep specified records and provide IPART with specified information for the purpose of IPART monitoring and reporting on SDP's compliance with the licence conditions.
- (c) Under clause 1(1) of schedule 1 and schedule 2 of the *Water Industry Competition (General) Regulation 2008* (NSW), SDP must provide IPART with such information in relation to SDP's activities under its Retail Supplier's Licence and Network Operator's Licence as IPART may direct within the time specified by IPART.

10 Definitions and Interpretation

Definitions and interpretation provisions used in this determination are set out in schedule 5.

11 Simplified outline

The following is a simplified outline of this determination:

Broadly, the applicable charges in the different modes of operation consist of the following:

During a Plant Operation Period:

- ▼ water usage charge (volumetric charge including variable network costs component) (\$/ML);
- ▼ water service charge (fixed daily charge including fixed and variable network costs component) (\$/day); and
- ▼ pipeline charge from the Date of Operation (\$/day).

During a Shutdown Period:

During a Short Term Shutdown:

- ▼ water usage charge (volumetric charge including variable network costs component) (\$/ML);
- ▼ daily shutdown charge (including fixed and variable network costs component) (\$/day); and

- ▼ pipeline charge from the Date of Operation (\$/day).

During a Medium Term Shutdown, a Long Term Shutdown or a Water Security Shutdown:

- ▼ water usage charge (volumetric charge including variable network costs component) (\$/ML);
- ▼ transition to shutdown charge (one off per event charge) (\$);
- ▼ daily shutdown charge (including fixed and variable network costs component) (\$/day); and
- ▼ pipeline charge from the Date of Operation (\$/day).

During a Restart Period:

Following a Short Term Shutdown:

- ▼ water usage charge (volumetric charge including variable network costs component) (\$/ML);
- ▼ daily restart charge (including fixed and variable network costs component) (\$/day); and
- ▼ pipeline charge from the Date of Operation (\$/day).

Following a Medium Term Shutdown, a Long Term Shutdown or a Water Security Shutdown:

- ▼ water usage charge (volumetric charge including variable network costs component) (\$/ML);
- ▼ transition to restart charge (one off per event charge) (\$);
- ▼ daily restart charge (including fixed and variable network costs component) (\$/day); and
- ▼ pipeline charge from the Date of Operation (\$/day).

Schedule 1 Maximum prices for the Water Supply Services during a Plant Operation Period

1 Application

- (a) This schedule specifies the methodology for determining the maximum prices that SDP may charge for the Water Supply Services provided during a Plant Operation Period.
- (b) This schedule 1 does not apply to Water Supply Services provided during:
 - (1) a Shutdown Period; or
 - (2) a Restart Period.

2 Maximum prices for the Water Supply Services during a Plant Operation Period

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Plant Operation Period is the sum of the following:

- (a) subject to clause 3 of this schedule 1, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360MWh}{90,000ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 1; or
- (2) otherwise, the water usage charge in Table 2, for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

[Note: 340,360MWh is the annual average amount of electricity consumption used to allocate variable network charges to SDP's water usage charge. 340,360MWh was determined by taking the annual average electricity consumption over the determination period (350,000MWh p.a.) and subtracting the annual average amount of electricity consumption allocated to the fixed water service charge (9,640MWh). 340,360MWh is divided by the approximate amount of Desalinated Water the Plant would produce if it were to run at full capacity for a year (90,000ML), to yield an approximation of the incremental amount of electricity required to produce each megalitre of Desalinated Water.]

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

- (b) for each day of the Plant Operation Period, a **water service charge** calculated as follows:

$$(\text{WSC} + \text{FNC} + (\$/\text{MWh} \times 26.5\text{MWh})) \times \frac{\text{AS}}{\text{TS}} \times \frac{\text{AC}}{\text{TC}}$$

Where:

WSC =

- (1) with a Carbon Pricing Scheme in operation, the water service charge in Table 3; or
 - (2) otherwise, the water service charge in Table 4,
- for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

[Note: 26.5 MWh is the rounded, annual average electricity consumption, converted to a daily amount for allocating variable network charges to SDP's water service charge (or daily shutdown charge/daily restart charge (as applicable)). This value equates to 9,640MWh p.a. reflecting the fixed electricity consumption of the Plant regardless of its mode of operation.]

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer on the relevant day;

TS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers on the relevant day;

[Note: If SDP only supplies one customer, customer A, and assuming that SDP supplies 200ML to customer A, then AS and TS = 200ML.

If SDP supplies 3 customers and assuming that SDP supplies 20ML to customer A, 100ML to customer B and 50ML to customer C, then TS = 170ML and AS for customer A = 20ML, AS for customer B = 100ML and AS for customer C = 50ML.]

AC = the Available Capacity, in ML, for the relevant day. For the purposes of this formula, if Available Capacity is greater than total capacity (**TC**), Available Capacity shall be deemed to be an amount equal to **TC**; and

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

TC = 250ML per day or, if the Plant is expanded, TC will be the nameplate capacity per day of the expanded Plant;

- (c) for each day of the Plant Operation Period which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{AS}{TS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer on the relevant day; and

TS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers on the relevant day.

For the purposes of calculating the water service charge and the pipeline charge under this Schedule, if, on a day during a Plant Operation Period, the Desalination Plant does not produce any Desalinated Water as a result of a Force Majeure Event:

- (a) where Sydney Water Corporation is the only customer of SDP on the relevant day, AS/TS will be deemed to be equal to 1; and
- (b) where SDP has multiple customers on the relevant day:
 - (1) AS will be equal to the number of ML of Desalinated Water supplied by SDP from the Plant to the relevant customer over the 12 months prior to the relevant day; and
 - (2) TS will be equal to the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the relevant day.

3 Water usage charge

The water usage charge leviable on Sydney Water Corporation for any Desalinated Water supplied by SDP from the Plant to Sydney Water Corporation at a time when Available Storage:

- (a) is equal to or greater than 70%, and has not been less than 70% since it was last equal to or greater than 80%; or
- (b) is equal to or greater than 80%,

shall be nil.

4 Worked examples

4.1 Worked example 1

Assume that for the purposes of this worked example only:

- ▼ 2 July 2012 - ownership of the Pipeline is transferred to SDP;
- ▼ 3 July 2012:
 - SDP's Network Operator's Licence is varied such that the Pipeline forms part of the Water Industry Infrastructure covered by that licence;
 - SDP supplies:
 - (A) customer A with 200ML of Desalinated Water (AS for customer A); and
 - (B) customer B with 20 ML of Desalinated Water (AS for customer B);
- ▼ the pipeline charge is \$130,000 per day.

On the basis of the above assumptions:

- ▼ the Date of Operation for the purposes of the pipeline charge is 3 July 2012;
- ▼ the number of ML of Desalinated Water supplied to all customers (TS) is 220ML;

For customer A:

- ▼ The pipeline charge for 3 July 2012 will be calculated as follows:

$$\$130,000 \times \frac{200\text{ML}}{220\text{ML}} = \$118,181.81$$

For customer B:

- ▼ The pipeline charge for 3 July 2012 will be calculated as follows:

$$\$130,000 \times \frac{20\text{ML}}{220\text{ML}} = \$11,818.18$$

The pipeline charge would apply in addition to the water usage charge and the water service charge for that day.

4.2 Worked example 2

Assume that for the purposes of this worked example only:

- ▼ the Pipeline has not been transferred to SDP;
- ▼ 3 July 2012 to 30 June 2013 - SDP produces 250 ML of Desalinated Water per day;

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

- ▼ 1 July 2013 – SDP produces 180ML of Desalinated Water;
- ▼ 2 July 2013 - SDP:
 - produces 200 ML of Desalinated Water;
 - supplies:
 - (A) customer A with 150 ML of Desalinated Water (AS for customer A); and
 - (B) customer B with 50 ML of Desalinated Water (AS for customer B);
- ▼ the Variable Network Charge for 2 July 2013 is \$30/MWh;
- ▼ the water usage charge (WUC) for 2 July 2013 is \$580/ML;
- ▼ the water service charge (WSC) for 2 July 2013 is \$400,000/day;
- ▼ the Fixed Network Charge (FNC) for 2 July 2013 is \$10,000/day;
- ▼ Available Storage is less than 70% from 3 July 2012 to 2 July 2013.

On the basis of the above assumptions:

- ▼ there is no pipeline charge;
- ▼ the Available Capacity (AC) for 2 July 2013 is 249.67ML, calculated as follows:

$$\frac{(250ML \text{ per day } \times 363 \text{ days}) + 200ML + 180ML}{365 \text{ days}}$$

For customer A:

The charges for 2 July 2013 will be calculated as follows:

- ▼ water usage charge for 150ML:

$$\begin{aligned} & \left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS \\ & \left(\$580 / ML + \frac{\$30 / MWh \times 340,360 MWh}{90,000 ML} \right) \times 150 ML \\ & = \$104,018 \end{aligned}$$

- ▼ water service charge:

$$\begin{aligned} & (WSC + FNC + (\$/MWh \times 26.5 MWh)) \times \frac{AS}{TS} \times \frac{AC}{TC} \\ & [\$400,000 + \$10,000 + (\$30/MWh \times 26.5 MWh)] \times \frac{150}{200} \times \frac{249.67}{250} \\ & = \$307,689.56 \end{aligned}$$

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

- ▼ total which may be levied for 2 July 2013 (being the sum of the water usage charge and the water service charge):

$$\$104,018 + \$307,689.56 = \$411,707.56$$

For customer B:

The charges for 2 July 2013 will be calculated as follows:

- ▼ water usage charge for 50ML:

$$\begin{aligned} & \left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS \\ & \left(\$580 / ML + \frac{\$30 / MWh \times 340,360 MWh}{90,000 ML} \right) \times 50 ML \\ & = \$34,672.67 \end{aligned}$$

- ▼ water service charge for 2 July 2013:

$$\begin{aligned} & (WSC + FNC + (\$/MWh \times 26.5 MWh)) \times \frac{AS}{TS} \times \frac{AC}{TC} \\ & [\$400,000 + \$10,000 + (\$30 / MWh \times 26.5 MWh)] \times \frac{50}{200} \times \frac{249.67}{250} \\ & = \$102,563.19 \end{aligned}$$

- ▼ total which may be levied for 2 July 2013 (being the sum of the water usage charge and the water service charge):

$$\$34,672.67 + \$102,563.19 = \$137,235.86$$

4.3 Worked example 3

Assume that for the purposes of this worked example only:

- ▼ the Pipeline has not been transferred to SDP;
- ▼ 2 July 2011 to 30 June 2012 – SDP produces 250 ML of Desalinated Water per day;
- ▼ 1 July 2012 – SDP:
 - produces 200 ML of Desalinated Water;
 - supplies:
 - (A) customer A with 150 ML of Desalinated Water (AS for customer A); and
 - (B) customer B with 50 ML of Desalinated Water (AS for customer B);
- ▼ the Variable Network Charge for 1 July 2012 is \$30/MWh;

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

- ▼ the water usage charge (WUC) for 1 July 2012 is \$540/ML;
- ▼ the water service charge (WSC) for 1 July 2012 is \$405,000/day;
- ▼ the Fixed Network Charge (FNC) for 1 July 2012 is \$10,000/day; and
- ▼ the Available Storage is less than 70% from 2 July 2011 to 1 July 2012.

On the basis of the above assumptions:

- ▼ there is no pipeline charge;
- ▼ the Available Capacity (AC) for 1 July 2012 is 249.86ML, calculated as follows:

$$\frac{(250ML \text{ per day} \times 364 \text{ days}) + (200ML \text{ per day} \times 1 \text{ day})}{365}$$

For customer A:

The charges for 1 July 2012 will be calculated as follows:

- ▼ water usage charge for 150ML:

$$\begin{aligned} & \left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS \\ & \left(\$540 / ML + \frac{\$30 / MWh \times 340,360 MWh}{90,000 ML} \right) \times 150 ML \\ & = \$98,018 \end{aligned}$$

- ▼ water service charge:

$$\begin{aligned} & (WSC + FNC + (\$/MWh \times 26.5 MWh)) \times \frac{AS}{TS} \times \frac{AC}{TC} \\ & [(\$405,000) + \$10,000 + (\$30/MWh \times 26.5 MWh)] \times \frac{150}{200} \times \frac{249.86}{250} \\ & = \$311,671.61 \end{aligned}$$

- ▼ total which may be levied for 1 July 2012 (being the sum of the water usage charge and the water service charge):

$$\$98,018 + \$311,671.61 = \$409,689.61$$

For customer B:

The charges for 1 July 2012 will be calculated as follows:

- ▼ water usage charge for 50ML:

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

$$\left(\$540 / ML + \frac{\$30 / MWh \times 340,360 MWh}{90,000 ML} \right) \times 50 ML$$

$$= \$32,672.67$$

- ▼ water service charge:

$$(WSC + FNC + (\$/MWh \times 26.5 MWh)) \times \frac{AS}{TS} \times \frac{AC}{TC}$$

$$[(\$405,000) + \$10,000 + (\$30 / MWh \times 26.5 MWh)] \times \frac{50}{200} \times \frac{2498}{250}$$

$$= \$103,890.54$$

- ▼ total which may be levied for 1 July 2012 (being the sum of the water usage charge and the water service charge):

$$\$32,672.67 + \$103,890.54 = \$136,563.21$$

4.4 Worked example 4

Assume that for the purposes of this worked example only:

- ▼ 5 July 2011 to 30 June 2012 – the Plant produces 250ML per day;
- ▼ 1 July 2012 to 3 July 2012 – the Plant produces 260 ML of Desalinated Water per day;
- ▼ 4 July 2012 – the Plant does not produce Desalinated Water i.e. production of Desalinated Water is 0;
- ▼ 5 July 2012 – the Plant produces 150 ML Desalinated Water and supplies:
 - customer A with 40ML;
 - customer B with 110ML;
- ▼ the Variable Network Charge for 5 July 2012 is \$30/MWh;
- ▼ the water usage charge (WUC) for 5 July 2012 is \$540/ML;
- ▼ the water service charge (WSC) for 5 July 2012 is \$405,000/day;
- ▼ the Fixed Network Charge (FNC) for 5 July 2012 is \$10,000/day;
- ▼ the Pipeline has not been transferred to SDP; and
- ▼ the Available Storage is less than 70% from 5 July 2011 to 5 July 2012.

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

On the basis of the above assumptions:

- ▼ this schedule 1 continues to apply on 4 July 2012 and 5 July 2012 on the basis that the total period during which the Plant is not producing Desalinated Water is less than 2 days;
- ▼ there is no pipeline charge;
- ▼ for 5 July 2012, the following values apply:
 - AS for customer A is 40ML;
 - AS for customer B is 110ML;
 - TS is 150ML;
 - the Available Capacity (AC) is 249.81ML, calculated as follows:

$$\frac{(250ML \text{ per day} \times 361 \text{ days}) + (260ML \text{ per day} \times 3 \text{ days}) + (150ML \text{ per day} \times 1 \text{ day})}{365}$$

For customer A

The charges for 5 July 2012 will be calculated as follows:

- ▼ water usage charge for 40ML:

$$\begin{aligned} & \left(WUC + \frac{\$/MWh \times 340,360MWh}{90,000ML} \right) \times AS \\ & \left(\$540 / ML + \frac{\$30 / MWh \times 340,360 MWh}{90,000 ML} \right) \times 40 ML \\ & = \$26,138.13 \end{aligned}$$

- ▼ water service charge:

$$\begin{aligned} & (WSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{AS}{TS} \times \frac{AC}{TC} \\ & [\$405,000 + \$10,000 + (\$30/MWh \times 26.5MWh)] \times \frac{40}{150} \times \frac{249.81}{250} \\ & = \$110,794.40 \end{aligned}$$

- ▼ total which may be levied for 5 July 2012 (being the sum of the water usage charge and the water service charge):

$$\$26,138.13 + \$110,794.40 = \$136,932.53$$

For customer B

The charges for 5 July 2012 will be calculated as follows:

- ▼ water usage charge for 110ML:

Schedule 1 Maximum prices for the Water Supply Services
during a Plant Operation Period

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

$$\left(\$540 / ML + \frac{\$30 / MWh \times 340,360 MWh}{90,000 ML} \right) \times 110 ML$$

$$= \$71,879.87$$

▼ water service charge:

$$(WSC + FNC + (\$/MWh \times 26.5 MWh)) \times \frac{AS}{TS} \times \frac{AC}{TC}$$

$$[\$405,000 + \$10,000 + (\$30/MWh \times 26.5 MWh)] \times \frac{110}{150} \times \frac{24981}{250}$$

$$= \$304,684.60$$

▼ total which may be levied for 5 July 2012 (being the sum of the water usage charge and the water service charge):

$$\$71,879.87 + \$304,684.60 = \$376,564.47$$

	403,424 x (1+ΔCPI ₁)	403,221 x (1+ΔCPI ₂)	402,760 x (1+ΔCPI ₃)	396,554 x (1+ΔCPI ₄)	389,002 x (1+ΔCPI ₅)

Schedule 2 Maximum prices for the Water Supply Services during a Shutdown Period

1 Application

- (a) This schedule specifies the methodology for determining the maximum prices that SDP may charge for the Water Supply Services provided during a Shutdown Period.
- (b) This schedule 2 does not apply to Water Supply Services provided during:
 - (1) a Plant Operation Period; or
 - (2) a Restart Period.

2 Categories for pricing purposes

2.1 Short Term Shutdown

If the total duration of the relevant Shutdown Period is 2 to 10 days inclusive (**Short Term Shutdown**):

- (a) the applicable maximum prices are to be calculated in accordance with clause 3 of this schedule 2;
- (b) clauses 4, 5 and 6 of this schedule 2 do not apply; and
- (c) the Short Term Shutdown is taken to begin on the first day the Plant is Shutdown.

For the avoidance of doubt, if the total duration of the relevant Shutdown Period is less than 2 days or more than 10 days, clause 3 of this schedule 2 does not apply.

2.2 Medium Term Shutdown

If the total duration of the relevant Shutdown Period is 11 to 90 days inclusive (**Medium Term Shutdown**):

- (a) the applicable maximum prices are to be calculated in accordance with clause 4 of this schedule 2;
- (b) clauses 3, 5 and 6 of this schedule 2 do not apply; and
- (c) the Medium Term Shutdown is taken to begin on the first day the Plant is Shutdown.

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

For the avoidance of doubt, if the total duration of the relevant Shutdown Period is less than 11 days or more than 90 days, clause 4 of this schedule 2 does not apply.

2.3 Long Term Shutdown

If the total duration of the relevant Shutdown Period is 91 days to 2 years inclusive (**Long Term Shutdown**):

- (a) the applicable maximum prices are to be calculated in accordance with clause 5 of this schedule 2;
- (b) clauses 3, 4 and 6 of this schedule 2 do not apply; and
- (c) the Long Term Shutdown Period is taken to begin on the first day the Plant is Shutdown.

For the avoidance of doubt, if the total duration of the relevant Shutdown Period is less than 91 days or more than 2 years, clause 5 of this schedule 2 does not apply.

2.4 Water Security Shutdown

If the total duration of the relevant Shutdown Period is more than 2 years (**Water Security Shutdown**):

- (a) the applicable maximum prices are to be calculated in accordance with clause 6 of this schedule 2;
- (b) clauses 3, 4 and 5 of this schedule 2 do not apply; and
- (c) the Water Security Shutdown is taken to begin on the first day the Plant is Shutdown.

For the avoidance of doubt, if the total duration of the relevant Shutdown Period is 2 years or less, clause 6 of this schedule 2 does not apply.

3 Maximum prices for the Water Supply Services for a Short Term Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Short Term Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 2, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 5; or
 - (2) otherwise, the water usage charge in Table 6,
- for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: *Although the Plant will not produce Desalinated Water during a Shutdown Period, SDP may continue to supply Desalinated Water out of storage after production has stopped.*]

- (b) for each day of the Short Term Shutdown, a **daily shutdown charge** calculated as follows:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DSC =

- (1) with a Carbon Pricing Scheme in operation, the daily shutdown charge in Table 10; or
 - (2) otherwise, the daily shutdown charge in Table 11,
- for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period;

- (c) for each day of the Short Term Shutdown which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period.

4 Maximum prices for the Water Supply Services for a Medium Term Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Medium Term Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 2, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 5; or
 - (2) otherwise, the water usage charge in Table 6,
- for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: *Although the Plant will not produce Desalinated Water during a Shutdown Period, SDP may continue to supply Desalinated Water out of storage after production has stopped.*]

- (b) a **transition to shutdown charge** calculated as follows:

$$TTS \times \frac{ADU}{ATS}$$

Where:

TTS = the transition to shutdown charge in Table 7 for the period in which the Medium Term Shutdown begins;

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period;

- (c) for each day of the Medium Term Shutdown, a **daily shutdown charge** calculated as follows:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DSC =

- (1) with a Carbon Pricing Scheme in operation, the daily shutdown charge in Table 12; or
 - (2) otherwise, the daily shutdown charge in Table 13,
- for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period;

- (d) for each day of the Medium Term Shutdown which is on or after the Date of Operation, the **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

Schedule 2 Maximum prices for the Water Supply Services during a Shutdown Period

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period.

5 Maximum prices for the Water Supply Services for a Long Term Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Long Term Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 2, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 5; or
- (2) otherwise, the water usage charge in Table 6, for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: Although the Plant will not produce Desalinated Water during a Shutdown Period, SDP may continue to supply Desalinated Water out of storage after production has stopped.]

- (b) a **transition to shutdown charge** calculated as follows:

$$TTS \times \frac{ADU}{ATS}$$

Where:

TTS = the transition to shutdown charge in Table 8 for the period in which the Long Term Shutdown begins;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period;

- (c) for each day of the Long Term Shutdown, a **daily shutdown charge** calculated as follows:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DSC =

- (1) with a Carbon Pricing Scheme in operation, the daily shutdown charge in Table 14; or
- (2) otherwise, the daily shutdown charge in Table 15, for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period; and

- (d) for each day of the Long Term Shutdown which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period.

Schedule 2 Maximum prices for the Water Supply Services during a Shutdown Period

6 Maximum prices for the Water Supply Services for a Water Security Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Water Security Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 2, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 5; or
- (2) otherwise, the water usage charge in Table 6, for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: *Although the Plant will not produce Desalinated Water during a Shutdown Period, SDP may continue to supply Desalinated Water out of storage after production has stopped.*]

- (b) a **transition to shutdown charge** calculated as follows:

$$TTS \times \frac{ADU}{ATS}$$

Where:

TTS = the transition to shutdown charge in Table 9 for the period in which the Water Security Shutdown begins;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period;

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

- (c) for each day of the Water Security Shutdown, a **daily shutdown charge** calculated as follows:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DSC =

- (1) with a Carbon Pricing Scheme in operation, the daily shutdown charge in Table 16; or
 - (2) otherwise, the daily shutdown charge in Table 17,
- for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period; and

- (d) for each day of the Water Security Shutdown which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period.

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

7 Water usage charge

The water usage charge leviable on Sydney Water Corporation for any Desalinated Water supplied by SDP from the Plant to Sydney Water Corporation at a time when Available Storage:

- (a) is equal to or greater than 70%, and has not been less than 70% since it was last equal to or greater than 80%; or
- (b) is equal to or greater than 80%,

shall be nil.

8 Worked examples

8.1 Worked example 5

Assume that for the purposes of this worked example only:

- ▼ 1 July 2013 - SDP decides to shutdown the Plant;
- ▼ 3 July 2013:
 - the Plant stops producing Desalinated Water;
 - the Pipeline is transferred to SDP and SDP's Network Operator's Licence is varied accordingly;
- ▼ 7 July 2013 - the Plant recommences producing Desalinated Water;
- ▼ pipeline charge is \$131,000/day;
- ▼ the number of ML of Desalinated Water supplied by SDP from the Plant to customer A over the 12 months prior to the commencement of the Shutdown Period is 1000ML (ADU for customer A);
- ▼ the number of ML of Desalinated Water supplied by SDP from the Plant to customer B over the 12 months prior to the commencement of the Shutdown Period is 2000ML (ADU for customer B); and
- ▼ the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period is 3000ML (ATS).

On the basis of the above assumptions:

- ▼ the Date of Operation for the purposes of the pipeline charge is 3 July 2013;
- ▼ the total duration of the Shutdown Period is 4 days (3 July 2013, 4 July 2013, 5 July 2013 and 6 July 2013). Therefore it is a Short Term Shutdown;

For customer A:

- ▼ The pipeline charge for each day of the Short Term Shutdown will be calculated as follows:

$$\$131,000 \times \frac{1000\text{ML}}{3000\text{ML}} = \$43,666.67$$

For customer B:

- ▼ The pipeline charge for each day of the Short Term Shutdown will be calculated as follows:

$$\$131,000 \times \frac{2000\text{ML}}{3000\text{ML}} = \$87,333.33$$

The pipeline charge would apply in addition to the water usage charge (if any) and the daily shutdown charge for that day.

8.2 Worked example 6

Assume that for the purposes of this worked example only:

- ▼ the Pipeline has not been transferred to SDP;
- ▼ 15 July 2013 - the Plant stops producing Desalinated Water;
- ▼ SDP assumes that the Plant will be Shutdown for 90 days (ie a Medium Term Shutdown) and charges the relevant medium term shutdown charges;
- ▼ the Plant was actually Shutdown for 95 days;
- ▼ Desalinated Water supplied by SDP over the 12 months prior to commencement of Shutdown Period:
 - to customer A is 50,000ML (ADU for customer A);
 - to customer B is 40,000ML (ADU for customer B);
- ▼ medium term shutdown charges:
 - transition to shutdown charge for 15 July 2013 is \$190,000 (TTS);
 - daily shutdown charge is \$402,000/day throughout the relevant period (DSC);
- ▼ long term shutdown charges:
 - transition to shutdown charge for 15 July 2013 is \$277,000 (TTS);
 - daily shutdown charge is \$383,000/day throughout the relevant period (DSC);
- ▼ Fixed Network Charge is \$10,000 per day throughout the relevant period (FNC); and

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

- ▼ Variable Network Charge is \$30/MWh throughout the relevant period.

On the basis of the above assumptions:

- ▼ there is no pipeline charge payable;
- ▼ first day of the Shutdown Period is 15 July 2013;
- ▼ the shutdown was a Long Term Shutdown, as the total duration of the Shutdown Period was 95 days; and
- ▼ Desalinated Water supplied by SDP to all customers over the 12 months prior to commencement of the Shutdown Period is 90,000ML (ATS).

The maximum prices that SDP may levy for a Long Term Shutdown are calculated as follows:

For customer A:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$277,000 \times \frac{50,000}{90,000}$$

$$= \$153,888.89$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$383,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{50,000}{90,000}$$

$$= \$218,775 \text{ per day}$$

$$= \$20,783,625 \text{ for 95 days}$$

- ▼ total which may be levied for the 95 days = \$20,937,513.89 (being the sum of the transition to shutdown charge and the daily shutdown charges)

For customer B:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$277,000 \times \frac{40,000}{90,000}$$

$$= \$123,111.11$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$383,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{40,000}{90,000}$$

$$= \$175,020 \text{ per day}$$

$$= \$16,626,900 \text{ for 95 days}$$

- ▼ total which may be levied for 95 days = \$16,750,011.11 (being the sum of the transition to shutdown charge and the daily shutdown charges)

However, as SDP had assumed that the Shutdown Period was to be a Medium Term Shutdown, it levied the following charges:

For customer A:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$190,000 \times \frac{50,000}{90,000}$$

$$= \$105,555.56$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$402,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{50,000}{90,000}$$

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

$$= \$229,330.56 \text{ per day}$$

$$= \$20,639,750 \text{ for 90 days}$$

- ▼ total which SDP levied = \$20,745,305.56 (being the sum of the transition to shutdown charge and the daily shutdown charges)

For customer B:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$190,000 \times \frac{40,000}{90,000}$$

$$= \$84,444.44$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$402,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{40,000}{90,000}$$

$$= \$183,464.44 \text{ per day}$$

$$= \$16,511,800 \text{ for 90 days}$$

- ▼ total which SDP levied = \$16,596,244.44 (being the sum of the transition to shutdown charge and the daily shutdown charge)

Therefore, the balance which SDP may levy is the amount that should have been charged for a long term shutdown less the amount that was charged for the medium term shutdown, with each relevant charge adjusted for interest in accordance with clause 7 of the Preliminary section of this determination. While each individual charge must be adjusted for interest based on the date on which that charge was due, broadly speaking, the amount SDP may levy is as follows:

For customer A:

$$\$20,937,513.89 - \$20,745,305.56 = \$192,208.33 \text{ (adjusted with interest)}$$

For customer B:

$$\$16,750,011.11 - \$16,596,244.44 = \$153,766.67 \text{ (adjusted with interest)}$$

8.3 Worked example 7

Assume that for the purposes of this worked example only:

- ▼ the Pipeline has not been transferred to SDP;
- ▼ 15 July 2013 - the Plant stops producing Desalinated Water;
- ▼ SDP assumes that the Shutdown will be for 95 days (ie, a Long Term Shutdown) and charges the relevant Long Term Shutdown charges;
- ▼ the Plant was actually shut for 90 days (ie, Medium Term Shutdown);
- ▼ Desalinated Water supplied by SDP over 12 months prior to commencement of Shutdown Period:
 - to customer A is 50,000ML (ADU for customer A);
 - to customer B is 40,000ML (ADU for customer B);
- ▼ long term shutdown charges:
 - transition to shutdown charge for 15 July 2013 is \$277,000 (TTS);
 - daily shutdown charge throughout the relevant period is \$383,000/day (DSC);
- ▼ medium term shutdown charges:
 - transition to shutdown charge for 15 July 2013 is \$190,000 (TTS);
 - daily shutdown charge throughout the relevant period is \$402,000/day (DSC);
- ▼ Fixed Network Charge throughout the relevant period is \$10,000 per day (FNC);
- ▼ Variable Network Charge throughout the relevant period is \$30/MWh.

On the basis of the above assumptions:

- ▼ there is no pipeline charge payable;
- ▼ first day of the Shutdown Period is 15 July 2013;
- ▼ the shutdown was a Medium Term Shutdown as the total duration of the Shutdown Period was 90 days; and
- ▼ the number of ML of Desalinated Water supplied to all customers over the 12 months prior to commencement of the Shutdown Period is 90,000ML (ATS).

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

The maximum prices that SDP may levy for a Medium Term Shutdown are calculated as follows:

For customer A:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$190,000 \times \frac{50,000}{90,000}$$

$$= \$105,555.56$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$402,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{50,000}{90,000}$$

$$= \$229,330.56 \text{ per day}$$

$$= \$20,639,750 \text{ for 90 days}$$

- ▼ total which SDP may levy for the 90 day Shutdown Period = \$20,745,305.56 (being the sum of the transition to shutdown charge and the daily shutdown charges);

For customer B:

- ▼ transition to shutdown charge

$$TTS \times \frac{ADU}{ATS}$$

$$\$190,000 \times \frac{40,000}{90,000}$$

$$= \$84,444.44$$

- ▼ daily shutdown charge:

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$402,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{40,000}{90,000}$$

$$= \$183,464.44 \text{ per day}$$

$$= \$16,511,800 \text{ for 90 days}$$

- ▼ total which SDP may levy for the 90 day Shutdown Period = \$16,596,244.44 (being the sum of the transition to shutdown charge and the daily shutdown charges).

However, as SDP had assumed that the Shutdown Period was to be a Long Term Shutdown, it levied the following charges:

For customer A:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$277,000 \times \frac{50,000}{90,000}$$

$$= \$153,888.89$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$383,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{50,000}{90,000}$$

$$= \$218,775 \text{ per day}$$

$$= \$20,783,625 \text{ for 95 days}$$

- ▼ total which SDP levied = \$20,937,513.89 (being the sum of the transition to shutdown charge and the daily shutdown charges)

Schedule 2 Maximum prices for the Water Supply Services
during a Shutdown Period

For customer B:

- ▼ transition to shutdown charge:

$$TTS \times \frac{ADU}{ATS}$$

$$\$277,000 \times \frac{40,000}{90,000}$$

$$= \$123,111.11$$

- ▼ daily shutdown charge:

$$(DSC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$383,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{40,000}{90,000}$$

$$= \$175,020 \text{ per day}$$

$$= \$16,626,900 \text{ for 95 days}$$

- ▼ total which SDP levied = \$16,750,011.11 (being the sum of the transition to shutdown charge and the daily shutdown charges).

Therefore, SDP must reimburse the difference between the amount that was charged for a Long Term Shutdown in error and the amount that should have been charged for a Medium Term Shutdown, with each relevant charge adjusted for interest in accordance with clause 7 of the Preliminary section of this determination. While each individual charge must be adjusted for interest based on the date on which that charge was due, broadly speaking, the amount SDP must reimburse is as follows:

For customer A:

$$\$20,937,513.89 - \$20,745,305.56 = \$192,208.33 \text{ (adjusted with interest)}$$

For customer B:

$$\$16,750,011.11 - \$16,596,244.44 = \$153,766.67 \text{ (adjusted with interest)}$$

Schedule 3 Maximum prices for the Water Supply Services during a Restart Period

1 Application

- (a) This schedule specifies the methodology for determining the maximum prices that SDP may charge for the Water Supply Services provided during a Restart Period.
- (b) This schedule 3 does not apply to Water Supply Services provided during:
 - (1) a Plant Operation Period; or
 - (2) a Shutdown Period.

2 Categories for pricing purposes

2.1 Restart Period following a Short Term Shutdown

If the Restart Period occurs following a Short Term Shutdown:

- (a) the applicable maximum prices are to be calculated in accordance with clause 3 of this schedule 3; and
- (b) clauses 4, 5 and 6 of this schedule 3 do not apply.

2.2 Restart Period following a Medium Term Shutdown

If the Restart Period occurs following a Medium Term Shutdown:

- (a) the applicable maximum prices are to be calculated in accordance with clause 4 of this schedule 3; and
- (b) clauses 3, 5 and 6 of this schedule 3 do not apply.

2.3 Restart Period following a Long Term Shutdown

If the Restart Period occurs following a Long Term Shutdown:

- (a) the applicable maximum prices are to be calculated in accordance with clause 5 of this schedule 3; and
- (b) clauses 3, 4 and 6 of this schedule 3 do not apply.

Schedule 3 Maximum prices for the Water Supply Services during a Restart Period

2.4 Restart Period following a Water Security Shutdown

If the Restart Period occurs following a Water Security Shutdown:

- (a) the applicable maximum prices are to be calculated in accordance with clause 6 of this schedule 3; and
- (b) clauses 3, 4 and 5 of this schedule 3 do not apply.

3 Maximum prices for the Water Supply Services for a Restart Period following a Short Term Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Restart Period following a Short Term Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 3, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 18; or
- (2) otherwise, the water usage charge in Table 19, for the applicable period;

$\$/MWh$ = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: Although the Plant will not produce Desalinated Water for supply during a Restart Period, SDP may continue to supply Desalinated Water out of storage during a Restart Period.]

- (b) for each day of the Restart Period, a **daily restart charge** calculated as follows:

$$(DRC + FNC + (\$/MWh \times 26.5 MWh)) \times \frac{ADU}{ATS}$$

Where:

DRC =

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

- (1) with a Carbon Pricing Scheme in operation, the daily restart charge in Table 23; or
- (2) otherwise, the daily restart charge in Table 24,
for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period;

- (c) for each day of the Restart Period which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period.

Schedule 3 Maximum prices for the Water Supply Services during a Restart Period

4 Maximum prices for the Water Supply Services for a Restart Period following a Medium Term Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Restart Period following a Medium Term Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 3, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 18; or
- (2) otherwise, the water usage charge in Table 19, for the applicable period;

$\$/MWh$ = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: Although the Plant will not produce Desalinated Water for supply during a Restart Period, SDP may continue to supply Desalinated Water out of storage during a Restart Period.]

- (b) a **transition to restart charge** calculated as follows:

$$TTR \times \frac{ADU}{ATS}$$

Where:

TTR = the transition to restart charge in Table 20 for the period in which the Restart Period begins;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period;

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

- (c) for each day of the Restart Period, a **daily restart charge** calculated as follows:

$$(DRC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DRC =

- (1) with a Carbon Pricing Scheme in operation, the daily restart charge in Table 25; or
- (2) otherwise, the daily restart charge in Table 26, for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period;

- (d) for each day of the Restart Period which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period.

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

5 Maximum prices for the Water Supply Services for a Restart Period following a Long Term Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Restart Period following a Long Term Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 3, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 18; or
- (2) otherwise, the water usage charge in Table 19,
for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: *Although the Plant will not produce Desalinated Water for supply during a Restart Period, SDP may continue to supply Desalinated Water out of storage during a Restart Period.*]

- (b) a **transition to restart charge** calculated as follows:

$$TTR \times \frac{ADU}{ATS}$$

Where:

TTR = the transition to restart charge in Table 21 for the period in which the Restart Period begins;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML per day of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

commencement of the Shutdown Period preceding the relevant Restart Period; and

- (c) for each day of the Restart Period, a **daily restart charge** calculated as follows:

$$(DRC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DRC =

- (1) with a Carbon Pricing Scheme in operation, the daily restart charge in Table 27; or
 - (2) otherwise, the daily restart charge in Table 28,
- for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

- (d) for each day of the Restart Period which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period.

Schedule 3 Maximum prices for the Water Supply Services during a Restart Period

6 Maximum prices for the Water Supply Services for a Restart Period following a Water Security Shutdown

The maximum price that SDP may levy on a customer for the Water Supply Services provided during a Restart Period following a Water Security Shutdown is the sum of the following:

- (a) subject to clause 7 of this schedule 3, a **water usage charge**, calculated as follows:

$$\left(WUC + \frac{\$/MWh \times 340,360 MWh}{90,000 ML} \right) \times AS$$

Where:

WUC =

- (1) with a Carbon Pricing Scheme in operation, the water usage charge in Table 18; or
- (2) otherwise, the water usage charge in Table 19, for the applicable period;

\$/MWh = the Variable Network Charge for the applicable period; and

AS = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer during the applicable period;

[Note: Although the Plant will not produce Desalinated Water for supply during a Restart Period, SDP may continue to supply Desalinated Water out of storage during a Restart Period.]

- (b) a **transition to restart charge** calculated as follows:

$$TTR \times \frac{ADU}{ATS}$$

Where:

TTR = the transition to restart charge in Table 22 for the period in which the Restart Period begins;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period;

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

- (c) for each day of the Restart Period, a **daily restart charge** calculated as follows:

$$(DRC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

Where:

DRC =

- (1) with a Carbon Pricing Scheme in operation, the daily restart charge in Table 29; or
 - (2) otherwise, the daily restart charge in Table 30,
- for the relevant day;

FNC = the Fixed Network Charge applicable for the relevant day;

\$/MWh = the Variable Network Charge for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period;

- (d) for each day of the Restart Period which is on or after the Date of Operation, a **pipeline charge** calculated as follows:

$$PC \times \frac{ADU}{ATS}$$

Where:

PC = the pipeline charge in Table 31 for the relevant day;

ADU = the number of ML of Desalinated Water supplied by SDP from the Plant to that customer over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period; and

ATS = the number of ML of Desalinated Water supplied by SDP from the Plant to all customers over the 12 months prior to the commencement of the Shutdown Period preceding the relevant Restart Period.

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

7 Water usage charge

The water usage charge leviable on Sydney Water Corporation for any Desalinated Water supplied by SDP from the Plant to Sydney Water Corporation at a time when Available Storage:

- (a) is equal to or greater than 70%, and has not been less than 70% since it was last equal to or greater than 80%; or
- (b) is equal to or greater than 80%,

shall be nil.

8 Worked example

Assume that for the purposes of this worked example only:

- ▼ the Pipeline has not been transferred to SDP;
- ▼ the Plant has been Shutdown for a period of 91 days in financial year 2013/14 (Long Term Shutdown);
- ▼ the Plant recommences production of Desalinated Water on day 92 of financial year 2013/14;
- ▼ the first day that SDP produces Desalinated Water for supply and supplies that Desalinated Water to a customer after the Shutdown Period is day 100 of financial year 2013/14;
- ▼ the transition to restart charge for the relevant day is \$1,771,000 (TTR);
- ▼ the daily restart charge throughout the relevant period is \$382,000 per day (DRC);
- ▼ Desalinated Water supplied by SDP over 12 months prior to commencement of the Shutdown Period preceding the Restart Period:
 - to customer A = 50,000ML (ADU for customer A);
 - to customer B = 40,000ML (ADU for customer B);
- ▼ Fixed Network Charge throughout the relevant period is \$10,000 per day (FNC); and
- ▼ Variable Network Charge throughout the relevant period is \$30/MWh.

On the basis of the above assumptions:

- ▼ there is no pipeline charge payable;
- ▼ the duration of the Restart Period is 8 days (day 92 to day 99); and
- ▼ the total Desalinated Water supplied to all customers over the 12 months prior to commencement of Shutdown Period is 90,000ML (ATS).

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

The maximum prices that SDP may levy for a Restart Period following a Long Term Shutdown are calculated as follows:

For customer A:

- ▼ transition to restart charge:

$$TTR \times \frac{ADU}{ATS}$$

$$\$1,771,000 \times \frac{50,000}{90,000}$$

$$= \$983,888.89$$

- ▼ daily restart charge:

$$(DRC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$382,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{50,000}{90,000}$$

$$= \$218,219.44 \text{ per day}$$

$$= \$1,745,755.56 \text{ for 8 days}$$

- ▼ total which may be levied for 8 days during the Restart Period = \$2,729,644.45 (being the sum of the transition to restart charge and the daily restart charges)

For customer B:

- ▼ transition to restart charge:

$$TTR \times \frac{ADU}{ATS}$$

$$\$1,771,000 \times \frac{40,000}{90,000}$$

$$= \$787,111.11$$

- ▼ daily restart charge:

$$(DRC + FNC + (\$/MWh \times 26.5MWh)) \times \frac{ADU}{ATS}$$

$$(\$382,000 + \$10,000 + (\$30/MWh \times 26.5MWh)) \times \frac{40,000}{90,000}$$

Schedule 3 Maximum prices for the Water Supply Services
during a Restart Period

= \$174,575.56 *per day*

= \$1,396,604.44 *for 8 days*

- ▼ total which may be levied for 8 days during the Restart Period = \$2,183,715.55 (being the sum of the transition to restart charge and the daily restart charges)

Schedule 4 Pipeline Charge

1 Application

This schedule specifies the maximum pipeline charge that SDP may charge on and from the Date of Operation.

2 Maximum pipeline charge

Table 31 sets out the maximum pipeline charge.

Table 31

Table 31 Pipeline charge

Pipeline charge	Commencement Date to 30 June 2013 (\$/day)	1 July 2013 to 30 June 2014 (\$/day)	1 July 2014 to 30 June 2015 (\$/day)	1 July 2015 to 30 June 2016 (\$/day)	1 July 2016 to 30 June 2017 (\$/day)
	130,032 x (1+ΔCPI ₁)	130,235 x (1+ΔCPI ₂)	129,399 x (1+ΔCPI ₃)	128,204 x (1+ΔCPI ₄)	127,711 x (1+ΔCPI ₅)

Schedule 5 Definitions and Interpretation

1 Definitions

1.1 General definitions

Availability Day means a day which is not an Unavailability Day.

Available Capacity, for a day, means:

- (a) where the relevant day is an Availability Day, the average of the Daily Volumes for the 364 Availability Days occurring prior to the relevant day and the relevant day;
- (b) where the relevant day is an Unavailability Day, the average of the Daily Volumes for the 365 Availability Days occurring prior to the relevant day.

Available Storage means the available storage in Sydney's water supply reservoirs as published on a weekly basis on the website of the Sydney Catchment Authority. If for any reason the Sydney Catchment Authority is unable to calculate or publish the Available Storage, the Available Storage is the amount of water as calculated and notified from time to time by such other authority as is nominated by the Minister responsible for Part 2 of the WIC Act.

Carbon Pricing Scheme means a carbon pricing scheme of the kind currently embodied in the *Clean Energy Act 2011* (Cth).

Commencement Date means the Commencement Date defined in clause 2(a) of the Preliminary section of this determination.

Daily Volume, for a day, means:

- (a) the volume of Desalinated Water produced by the Plant on that day; or
- (b) where the supply capability of the Plant is reduced on that day as a result of a Force Majeure Event, the volume of Desalinated Water the Plant would have been capable of producing on that day had the Force Majeure Event not taken place; or
- (c) where the nameplate capacity of the Plant has been expanded since that day, the volume of Desalinated Water referred to in paragraph (a) or (b) (as the case may be) multiplied by the proportion that the expanded nameplate capacity of the Plant bears to the nameplate capacity of the Plant as at that day.

Date of Operation means the later of:

Schedule 5 Definitions and Interpretation

- (a) the date on which ownership of the Pipeline is transferred to SDP; and
- (b) the date that the Licence Variation takes effect under the WIC Act.

Desalinated Water means desalinated water produced at the Plant which is suitable for the purposes specified in SDP's Network Operator's Licence and Retail Supplier's Licence.

Distribution Network Service Provider has the meaning given in the National Electricity Rules.

Fixed Network Charge, for a day, means the fixed charges, fees and tariffs payable by SDP in respect of Use of System Services provided on that day by a Distribution Network Service Provider (including access charges and capacity charges) which are applied to the NMI (or NMIs) at which SDP's electricity usage at the Plant is measured.

Force Majeure Event means any event or circumstance which:

- (a) reduces the amount of Desalinated Water the Plant is capable of supplying to SDP's customers, including by means of the Pipeline;
- (b) is outside the reasonable control of SDP (including its contractors); and
- (c) could not have been prevented, avoided or overcome by SDP and its contractors acting in accordance with Good Industry Practice.

Good Industry Practice has the meaning given in SDP's Network Operator's Licence.

GST has the meaning given under the A New Tax System (Goods and Services Tax) Act 1999 (Cth).

Interest Rate means 6.7% per annum real pre-tax.

IPART has the meaning given in clause 4(a) of the Preliminary section of this determination, established under the IPART Act.

IPART Act means the *Independent Pricing and Regulatory Tribunal Act 1992* (NSW).

Licence Variation means a variation to SDP's Network Operator's Licence such that the Pipeline forms part of the Water Industry Infrastructure covered by that licence.

Long Term Shutdown means Long Term Shutdown as defined in clause 2.3 of schedule 2.

Medium Term Shutdown means Medium Term Shutdown as defined in clause 2.2 of schedule 2.

ML means megalitres or one million litres.

MWh means megawatt hours.

National Electricity Law means the National Electricity Law set out in the Schedule to the *National Electricity (South Australia) Act 1996* (SA).

National Electricity Rules means the National Electricity Rules made under the National Electricity Law.

Network Operator's Licence has the meaning given in the WIC Act.

NMI means a meter allocated a National Metering Identifier as defined in the National Electricity Rules.

Pipeline means the pipeline system running from Lot 2 in Deposited Plan 1077972 in the suburb of Kurnell to Lot A in Deposited Plan 365407 in the suburb of Erskineville and consisting of the following infrastructure:

- (a) an overland pipeline running from the drinking water pumping station at the Plant to Silver Beach;
- (b) a marine pipeline running from Silver Beach to a point 800 metres offshore from Silver Beach;
- (c) twin marine pipelines running from 800 metres offshore of Silver Beach to Cook Park, Kyeemagh; and
- (d) an overland pipeline running from Cook Park, Kyeemagh to the connection valve at Shaft 11C on the City Tunnel at Bridge Street, Erskineville.

Plant means the Water Industry Infrastructure covered by the Network Operator's Licence held by SDP (excluding the Pipeline).

Plant Operation Period means a period in which the Plant:

- (a) is producing Desalinated Water and that Desalinated Water is being supplied by SDP to a customer; or
- (b) is Shutdown for less than 2 days.

For the avoidance of doubt, a Plant Operation Period begins on and includes the first day of a period during which the Plant produces and supplies Desalinated Water to a customer, and ends on and includes the day immediately preceding the first day of a Shutdown Period.

Referral means the Referral defined in clause 4(b) of the Preliminary section of this determination.

Schedule 5 Definitions and Interpretation

Restart Period means a period:

- (a) beginning on the day of recommencement of the production of Desalinated Water at the Plant following a Shutdown Period; and
- (b) ending on the day before the first day that Desalinated Water is produced by the Plant and supplied by SDP from the Plant to a customer after that Shutdown Period.

Retail Supplier's Licence has the meaning given in the WIC Act.

SDP has the meaning given in clause 1 of the Preliminary section of this determination.

Short Term Shutdown means Short Term Shutdown as defined in clause 2.1 of schedule 2.

Shutdown means when the Plant:

- (a) is not producing Desalinated Water; or
- (b) is producing minimal quantities of Desalinated Water for the sole purpose of maintaining the Plant (including Plant membranes).

Shutdown Period means a period of 2 or more days for which the Plant is Shutdown.

Sydney Catchment Authority means the Sydney Catchment Authority constituted under the *Sydney Water Catchment Management Act 1998* (NSW).

Sydney Water Corporation means Sydney Water Corporation (ABN 49 776 225 038), a statutory State-owned corporation established under the *State Owned Corporations Act 1989* (NSW).

Term means the Term defined in clause 2(b) of the Preliminary section of this determination.

Unavailability Day means any of the following days:

- (a) any day on which Available Storage is equal to or greater than 80%;
- (b) any day on which Available Storage is equal to or greater than 70% provided that, as at that day, Available Storage has not been less than 70% since it was last equal to or greater than 80%;
- (c) any day during which SDP is required to reduce production at the Plant below 250ML or, if the Plant is expanded, the nameplate capacity per day of the expanded Plant, other than because of SDP being in breach of a contract pursuant to which it operates the Plant;
- (d) any day on which the Plant is Shutdown; or
- (e) any day in a Restart Period.

Use of System Services has the meaning given in the National Electricity Rules.

Variable Network Charge means the variable charge, fee or tariff per megawatt hour payable by SDP in respect of Use of System Services provided by a Distribution Network Service Provider in respect of electricity supplied to the NMI (or NMIs) at which SDP's electricity usage at the Plant is measured for the applicable period

Water Industry Infrastructure has the meaning given in SDP's Network Operator's Licence.

Water Security Shutdown means Water Security Shutdown as defined in clause 2.4 of schedule 2.

Water Supply Services means the Water Supply Services as defined in clause 4(b) of the Preliminary section of this determination.

WIC Act means the *Water Industry Competition Act 2006* (NSW).

1.2 Consumer Price Index

- (a) CPI means the consumer price index All Groups index number for the weighted average of 8 capital cities, published by the Australian Bureau of Statistics, or if the Australian Bureau of Statistics does not or ceases to publish the index, then CPI will mean an index determined by IPART.

$$(b) \Delta CPI_1 = \left(\frac{CPI_{March 2012}}{CPI_{March 2011}} \right) - 1$$

$$\Delta CPI_2 = \left(\frac{CPI_{March 2013}}{CPI_{March 2011}} \right) - 1$$

$$\Delta CPI_3 = \left(\frac{CPI_{March 2014}}{CPI_{March 2011}} \right) - 1$$

$$\Delta CPI_4 = \left(\frac{CPI_{March 2015}}{CPI_{March 2011}} \right) - 1$$

$$\Delta CPI_5 = \left(\frac{CPI_{March 2016}}{CPI_{March 2011}} \right) - 1$$

each as calculated and notified by IPART.

- (c) The subtext (for example $CPI_{\text{March}2012}$) when used in relation to paragraph (b) above means the CPI for the quarter and year indicated (in the example, the March quarter for 2012).

2 Interpretation

2.1 General provisions

In this determination:

- (a) headings are for convenience only and do not affect the interpretation of this determination;
- (b) a reference to a schedule, annexure, clause or table is a reference to a schedule or annexure to, clause of, or table in, this determination unless otherwise indicated;
- (c) a construction that would promote the purpose or object expressly or impliedly underlying the WIC Act is to be preferred to a construction that would not promote that purpose or object;
- (d) words importing the singular include the plural and vice versa;
- (e) a reference to a law or statute includes regulations, rules, codes and other instruments under it and consolidations, amendments, re-enactments or replacements of them;
- (f) where a word is defined, other grammatical forms of that word have a corresponding meaning;
- (g) a reference to a day is to a calendar day;
- (h) a reference to a person includes a reference to the person's executors, administrators, successors, substitutes (including, but not limited to, persons taking by novation), replacements and assigns; and
- (i) a reference to a body, whether statutory or not:
 - (1) which ceases to exist; or
 - (2) whose powers or functions are transferred to another body, is a reference to the body which replaces it or which substantially succeeds to its powers or functions.

2.2 Explanatory notes and clarification notice

- (a) Explanatory notes, the simplified outline and worked examples do not form part of this determination, but in the case of uncertainty the explanatory notes and worked examples may be relied on for interpretation purposes.
- (b) IPART may publish a clarification notice in the NSW Government Gazette to correct any manifest error in this determination as if that clarification notice formed part of this determination.

2.3 Prices exclusive of GST

Prices or charges specified in this determination do not include GST.

Schedule 6 Statement of reasons why IPART has chosen to set a methodology for fixing a maximum price

Under section 13A of the IPART Act, IPART may set maximum prices or may determine a methodology for setting maximum prices.

In this determination, IPART has employed a methodology for fixing the maximum prices that SDP may charge for the Water Supply Services. The methodology allows for:

- (a) a pass through of actual electricity network costs incurred by SDP in providing the Water Supply Services;
- (b) recovery of SDP's costs in relation to the Pipeline; and
- (c) higher charges for Water Supply Services when a Carbon Pricing Scheme enters operation on 1 July 2012.

IPART considers it important that SDP is able to pass through electricity network costs through its water prices given that SDP will have little ability to control these costs. In addition, there is significant uncertainty about average changes in network prices into the future. Given these uncertainties, we have established a mechanistic cost pass through provision for network charges to ensure that SDP does not have to bear the risk associated with changes in network costs. This in turn ensures that the charges paid by water customers ultimately reflect the actual network costs.

In this determination, IPART has determined a methodology allowing for higher charges when a Carbon Pricing Scheme enters operation on 1 July 2012. This is because the water usage charge, the water service charge, the daily shutdown charge and the daily restart charge each include an electricity consumption component.

SDP proposes to acquire the Pipeline, at some time after the date of this determination, in order to provide the Water Supply Services. The pipeline charge determined by IPART reflects the estimated incremental fixed costs that SDP will incur in providing the Water Supply Services in circumstances where it has acquired the Pipeline and the Licence Variation has occurred (including a return on and return of capital expenditure associated with the Pipeline, and the fixed component of the operating costs of the Pipeline). As such, IPART considers that SDP should only be permitted to charge the pipeline charge in circumstances where SDP has acquired the Pipeline and the Licence Variation has occurred, and has set a methodology to allow for this.

Government Gazette

OF THE STATE OF
NEW SOUTH WALES

Number 49

Assents to Acts

ACTS OF PARLIAMENT ASSENTED TO

Legislative Council Office, Sydney, 3 May 2012

IT is hereby notified, for general information, that Her Excellency the Governor has, in the name and on behalf of Her Majesty, this day assented to the undermentioned Acts passed by the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled, viz.:

Act No. 23, 2012 – An Act to amend the Road Transport (General) Act 2005 with respect to sanctions for offences involving police pursuits, high range speeding and certain other driving offences; and for other purposes. [**Road Transport (General) Amendment (Vehicle Sanctions) Act 2012**]

DAVID BLUNT,
Clerk of the Parliaments

OFFICIAL NOTICES**Appointments****CONSTITUTION ACT 1902**

Department of Premier and Cabinet, Sydney

9 May 2012

Ministerial Arrangements During the Absence from Duty
of the Premier and Minister for Western Sydney

PURSUANT to section 36 of the Constitution Act 1902, Her Excellency the Governor, with the advice of the Executive Council, has authorised the Honourable A. J. Stoner, M.P., Deputy Premier, Minister for Trade and Investment and Minister for Regional Infrastructure and Services, to act for and on behalf of the Premier and that the Honourable V. M. Dominello, M.P., Minister for Citizenship and Communities and Minister for Aboriginal Affairs, to act for and on behalf of the Minister for Western Sydney, as on and from 12 May 2012, with a view to them performing the duties of the offices of the Premier and Minister for Western Sydney respectively during my absence from duty; and that the above acting arrangements with the commencement date of 11 May 2012, approved at the Executive Council of 2 May 2012 has been revoked.

BARRY O'FARRELL, M.P.,
Premier

Roads and Maritime Services

ROAD TRANSPORT (GENERAL) ACT 2005

Notice under Clause 20 of the Road Transport (Mass, Loading and Access) Regulation 2005

LEETON SHIRE COUNCIL, in pursuance of Division 4 of Part 2 of the Road Transport (Mass, Loading, Access) Regulation 2005, by this Notice, specify the routes and areas on or in which Road Train Vehicles may be used subject to any requirements or conditions set out in the Schedule.

Dated: 1 May 2012.

JOHN BATCHELOR,
General Manager,
Leeton Shire Council
(by delegation from the Minister for Roads)

SCHEDULE

FISHERIES MANAGEMENT ACT 1994

ERRATUM

THE notice published on page 1160 in *New South Wales Government Gazette* No. 47 of 4 May 2012, relating to Section 227 and 228 (2) Instrument of Delegation from Minister to Director General was gazetted with the incorrect date of 1 April 2011 – it should read 1 April 2012. This erratum corrects that error with the gazettal date remaining 4 May 2012.

MINERAL RESOURCES

NOTICE is given that the following applications have been received:

ASSESSMENT LEASE APPLICATION

(T12-1066)

No. 50, BORAL MONTORO PTY LIMITED (ACN 002 944 694), area of about 6.5935 square kilometres, for clay/shale and structural clay, dated 3 April 2012. (Sydney Mining Division).

EXPLORATION LICENCE APPLICATIONS

(T12-1118)

No. 4571, MGN CAPITAL PTY LIMITED (ACN 154 507 310), area of 88 units, for Group 1, dated 4 May 2012. (Cobar Mining Division).

(T12-1119)

No. 4572, MGN CAPITAL PTY LIMITED (ACN 154 507 310), area of 100 units, for Group 1, dated 4 May 2012. (Cobar Mining Division).

(T12-1120)

No. 4573, ARK MINES LIMITED (ACN 123 668 717), area of 22 units, for Group 1, dated 7 May 2012. (Orange Mining Division).

MINING LEASE APPLICATION

(T12-1508)

No. 424, CENTENNIAL SPRINGVALE PTY LIMITED (ACN 052 096 812) AND SPRINGVALE SK KORES PTY LIMITED (ACN 051 015 402), area of about 30.6 hectares, for the purpose of any drillhole or shaft for ventilation, drainage, access, any reservoir, dam, drain or water race, any building or mining plant, any cable, conveyor, pipeline, telephone line or signal, any bin, magazine or fuel chute, conveyance of electricity, conveyance of materials, communications and emergency access to underground workings, dated 1 May 2012. (Orange Mining Division).

CHRIS HARTCHER, M.P.,
Minister for Resources and Energy

PRIMARY INDUSTRIES

PLANT DISEASES (RED IMPORTED FIRE ANT) ORDER 2012

under the Plant Diseases Act 1924

I, SATENDRA KUMAR, Director, Plant Biosecurity, with the delegated authority of the Minister for Primary Industries in pursuance of section 3A of the Plant Diseases Act 1924 ("the Act"), and in pursuance of section 4 of the Act being of the opinion that the importation, introduction or bringing of Red Imported Fire Ants, RIFA nest material, RIFA host material and certain other things into New South Wales is likely to introduce the pest Red Imported Fire Ant (*Solenopsis invicta*) into New South Wales, make the following Order:

- (a) prohibiting the importation, introduction or bringing of Red Imported Fire Ants or RIFA nest material into New South Wales; and
- (b) regulating the importation, introduction or bringing of RIFA host material and certain other things into New South Wales.

1 Name of Order

This Order is the Plant Diseases (Red Imported Fire Ant) Order 2012.

2 Commencement

This Order commences on the date it is published on the Department's internet website.

3 Interpretation

In this Order:

area freedom certificate means a certificate:

- (a) approved by the officer responsible for plant biosecurity in the State or Territory, and
- (b) certifying that Red Imported Fire Ants are absent from the State or Territory or part of the State or Territory.

approved treatment means the treatment and risk management measures relevant to the type of RIFA host material, as specified in Schedule 3.

authorised person means:

- (a) an inspector or a person authorised pursuant to section 11 (3) of the Act; or
- (b) a person authorised under a law of another State or Territory that relates to plant biosecurity.

Certification Assurance Arrangement means an arrangement approved by the Department of Primary Industries which enables a business accredited under the arrangement to certify that certain quarantine requirements have been satisfied for movement to interstate and/or intrastate markets.

Note: An example of an approved Certification Assurance Arrangement is the Interstate Certification Assurance (ICA) Scheme.

containerised plant means any plant with soil attached, whether in a container or not.

machinery means any vehicle, equipment or other mechanical apparatus of any kind which has at any time been used in relation to agriculture or for moving or disturbing soil.

Plant Health Assurance Certificate means a certificate issued by a business accredited under a Certification Assurance Arrangement.

Plant Health Certificate means a certificate (known as a Plant Health Certificate) issued by an authorised person.

plant mulch means any organic plant mulch including bark, wood chips, hay, straw and sugar cane bagasse.

property confirmed free of RIFA means a property that satisfies the requirements specified in Schedule 2.

Red Imported Fire Ant or **RIFA** means the pest *Solenopsis invicta*.

RIFA host material means any baled hay, baled straw, containerised plant, machinery, plant mulch, soil or turf.

RIFA nest material means any material such as soil, turf, grass or other organic matter that has or appears to have been, part of a nest or mound built by Red Imported Fire Ants.

soil includes potting mixes, any forms of manufactured potting media, pebbles and gravel.

thing containing soil from a RIFA outbreak area means any thing with soil on or in the thing (other than RIFA host material) that is sourced from within a 5 kilometre radius of a known or suspected detection of Red Imported Fire Ant.

turf means any grass sod with soil attached.

the Act means the Plant Diseases Act 1924.

Note: **Department, covering or package, inspector, occupier** and **owner** all have the same meaning as in the Act.

4 Prohibition on the introduction of Red Imported Fire Ants and RIFA nest material

Pursuant to section 4 (1) of the Act the importation, introduction or bringing of any of the following into New South Wales is prohibited:

- (a) live Red Imported Fire Ants;
- (b) RIFA nest material; or
- (c) any thing that has on or in the thing any live Red Imported Fire Ant or any RIFA nest material.

5 Regulation of the movement of RIFA host material and things containing soil from a RIFA outbreak area

- (1) Pursuant to section 4 (1) of the Act the importation, introduction or bringing into New South Wales of RIFA host material or any thing containing soil from a RIFA outbreak area is regulated as specified in this clause.
- (2) RIFA host material must not be moved into New South Wales unless:
 - (a) the RIFA host material is sourced from a State or Territory or part of a State or Territory, for which an area freedom certificate is currently in force; or
 - (b) the movement is as specified in Schedule 1 and complies with the relevant conditions of exception set out in Schedule 1; or
 - (c) at the time a person moved the RIFA host material into New South Wales, the person knew the RIFA host material had been within 5 kilometres of a known or suspected detection of Red Imported Fire Ant for 5 days or less.
- (3) Any thing containing soil from a RIFA outbreak area must not be moved into New South Wales unless:
 - (a) the thing has been cleaned by brushing, washing, high pressure hosing, steam or compressed air so that it is free of all soil; or
 - (b) the movement is as specified in Schedule 1 and complies with the relevant conditions of exception set out in Schedule 1; or
 - (c) at the time a person moved the thing into New South Wales, the person knew the thing had been within 5 kilometres of a known or suspected detection of Red Imported Fire Ant for 5 days or less.
- (4) The movement of any RIFA host material or any thing containing soil from a RIFA outbreak area in accordance with Schedule 1 must be accompanied by:
 - (a) a Plant Health Certificate, where if moved in accordance with:
 - (i) paragraph 1 of Schedule 1, certifying that the source of the RIFA host material is a property or facility located more than 5 kilometres from a known or suspected detection of Red Imported Fire Ant;
 - (ii) paragraph 2 of Schedule 1, certifying that the source of the RIFA host material or thing containing soil from a RIFA outbreak area is a property confirmed free of RIFA;
 - (iii) paragraph 3 of Schedule 1, certifying that the RIFA host material or thing containing soil from a RIFA outbreak area has received an approved treatment;
 - (iv) paragraph 4 of Schedule 1, certifying that the machinery has been inspected and found to be free of all soil and organic matter;
 - (v) paragraph 5 of Schedule 1, certifying that the plant mulch or soil is packed in the original sealed covering or package;
 - (vi) paragraph 6 of Schedule 1, certifying that the hay bales or straw bales are dry and free of all soil;
 - (vii) paragraph 7 of Schedule 1, certifying that the containerised plant has been inspected and found to be free of Red Imported Fire Ant; or
 - (b) a Plant Health Assurance Certificate issued under a Certification Assurance Arrangement.

SCHEDULE 1

Exceptions for movement of RIFA host material or things containing soil from a RIFA outbreak area

1 RIFA host material sourced from a property located more than 5 km from a known or suspected detection of Red Imported Fire Ant

Movement of RIFA host material sourced from a property located more than 5 kilometres from a known or suspected detection of Red Imported Fire Ant.

2 RIFA host material or things containing soil from a RIFA outbreak area sourced from a property confirmed free of RIFA

Movement of RIFA host material or any thing containing soil from a RIFA outbreak area sourced from a property confirmed free of RIFA, subject to the following condition:

- (a) Where the property or facility is owned or occupied by a business accredited under a Certification Assurance Arrangement, the owner or occupier of the property or facility must ensure that the RIFA host material or thing containing soil from a RIFA outbreak area is packed, labelled and certified in accordance with the Certification Assurance Arrangement.

3 RIFA host material or things containing soil from a RIFA outbreak area that have received an approved treatment

Movement of RIFA host material or any thing containing soil from a RIFA outbreak area that has received an approved treatment, subject to the following conditions:

- (a) The owner or occupier of the property or facility from which the RIFA host material or thing containing soil from a RIFA outbreak area is sourced must ensure that, following treatment, the RIFA host material or thing containing soil from a RIFA outbreak area is stored, handled and consigned in a manner that prevents infestation by Red Imported Fire Ant;

- (b) Where the property or facility is owned or occupied by a business accredited under a Certification Assurance Arrangement, the owner or occupier of the property or facility must ensure that the RIFA host material or thing containing soil from a RIFA outbreak area is packed, labelled and certified in accordance with the Certification Assurance Arrangement.

4 Machinery free of all soil and organic matter

Movement of machinery that has been inspected by an authorised person and found to be free of all soil and organic matter.

5 Plant mulch or soil commercially packed and secured from infestation by Red Imported Fire Ant

Movement of plant mulch or soil packed in the original sealed covering or package in which the plant mulch or soil was commercially packed, subject to the following condition:

- (a) The owner or occupier of the property or facility from which the plant mulch or soil is sourced must ensure that the plant mulch or soil is stored, handled and consigned in a manner that prevents infestation by Red Imported Fire Ant.

6 Hay bales or straw bales dry and free of all soil

Movement of hay bales or straw bales that have been inspected by an authorised person and found to be dry and free of all soil, subject to the following condition:

- (a) The owner or occupier of the property or facility from which the hay bales or straw bales are sourced must ensure that the hay bales or straw bales are stored, handled and consigned in a manner that prevents infestation by Red Imported Fire Ant.

7 Containerised plants free of Red Imported Fire Ant

- (1) Movement of relocated containerised plants or non-commercial consignments of containerised plants that have been inspected by an authorised person and found to be free of Red Imported Fire Ant, subject to the following conditions:

- (a) The inspection must occur within 48 hours prior to movement; and
(b) Each relocated containerised plant and each containerised plant in a non-commercial consignment of containerised plants must be inspected.

- (2) In this paragraph:

relocated containerised plants means containerised plants that are being moved as part of the relocation of premises (including domestic and commercial premises).

non-commercial consignments of containerised plants means consignments of 30 or less containerised plants where no more than two consignments are dispatched from the same premises or the same consignor in a calendar month.

SCHEDULE 2

Property confirmed free of RIFA

1 Definitions

In this Schedule:

approved inspection person means a person who:

- (a) has completed a training program approved by the Department of Primary Industries in the detection and recognition of Red Imported Fire Ant; or
(b) is authorised by a business accredited under a Certification Assurance Arrangement to conduct inspections of behalf of that business.

2 Requirements for RIFA property freedom

- (1) A property is a property confirmed free of RIFA if the requirements specified in subparagraph (2) or subparagraph (3) are satisfied.

- (2) The property:

- (a) must have been inspected and accredited by an authorised person as free of Red Imported Fire Ants; and
(b) within 28 days prior to the movement of the RIFA host material or thing containing soil from a RIFA outbreak area:
(i) must have been inspected by an authorised person or an approved inspection person and found to be free of Red Imported Fire Ant; and
(ii) must not have received or shared any RIFA host material or any thing containing soil from a RIFA outbreak area with any other property or facility located within 5 kilometres from a known or suspected detection of Red Imported Fire Ant unless the RIFA host material or thing:
(A) has received an approved treatment; or
(B) is sourced from a property confirmed free of RIFA.

- (3) Where the property has supplied a non-commercial consignment of RIFA host material, the property must have been inspected by an authorised person within 5 days prior to the movement of the consignment and found to be free of Red Imported Fire Ant.

Note: The procedure under an approved Certification Assurance Arrangement for the purpose of paragraph 2 (2) of this Schedule in relation to containerised plants is ICA-40 Property Freedom of Plants for Red Imported Fire Ant.

SCHEDULE 3

Approved treatments

1 Definitions

In this Schedule:

APVMA means the Australian Pesticides and Veterinary Medicines Authority.

re-potting means the complete removal of the soil or potting media from the plant and re-potting the plant in new soil or potting media.

2 Drenching with chlorpyrifos or cyfluthrin

Any containerised plant treated by:

- (a) drenching with or complete immersion in a solution containing 500 g/L chlorpyrifos within 28 days prior to movement in accordance with all APVMA permit conditions, ensuring that:
- (i) the plant is not removed from its containers prior to treatment; and
 - (ii) the soil or potting media is thoroughly saturated with the treatment solution; and
 - (iii) the container is immersed so that the soil or potting media is completely covered by the treatment solution; and
 - (iv) the container remains in the solution until all bubbling ceases; and
 - (v) the dip mixture is replaced after a maximum of 8 hours; or
- (b) drenching with a solution containing 12.5 g/L cyfluthrin in accordance with all APVMA permit conditions.

Note: The procedure under an approved Certification Assurance Arrangement for the purposes of this paragraph in relation to treatment of containerised plants with chlorpyrifos is ICA-39 Treatment and Inspection of Plants for Red Imported Fire Ant.

3 Grown in potting media treated with chlorpyrifos or bifenthrin

Any containerised plant grown in a potting media treated with a pesticide containing:

- (a) 2 g/kg bifenthrin
- (i) in accordance with all APVMA permit conditions; and
 - (ii) the dosage must take into account the time the plant remains in the nursery after potting up and in transit; or
- (b) 100 g/kg chlorpyrifos in accordance with all APVMA permit conditions.

4 Re-potted with potting media treated with chlorpyrifos or bifenthrin or sourced from a property confirmed free of RIFA

Any containerised plant re-potted within 48 hours prior to movement using potting media:

- (a) treated with 2 g/kg bifenthrin in accordance with all APVMA permit conditions; or
- (b) treated with 100 g/kg chlorpyrifos in accordance with all APVMA permit conditions; or
- (c) sourced from a property confirmed free of RIFA in accordance with paragraph 2 (2) of Schedule 2.

5 Cover spraying with chlorpyrifos

Turf treated within 28 days prior to movement by cover spraying with a solution containing 500 g/L chlorpyrifos in accordance with all APVMA permit conditions.

6 Heat treatment

Plant mulch or soil heat treated so that all parts of the mass have been brought to a minimum temperature of 65.5°C.

7 Methyl bromide fumigation

Any hay bales or straw bales fumigated with a fumigant containing 1000 g/kg methyl bromide in accordance with all APVMA permit conditions.

Dated this 9th day of May 2012.

COMPANION ANIMALS TASKFORCE

Release of Companion Animals Taskforce Discussion Paper

THE Minister for Local Government, the Hon. Don Page, M.P., and the Minister for Primary Industries, the Hon. Katrina Hodgkinson, M.P., have released for public comment a discussion paper prepared by the Companion Animals Taskforce.

The Ministers established the Taskforce to provide advice on key companion animal issues. The Taskforce is chaired by the Member for Charlestown, Mr Andrew Cornwell, M.P. and contains representatives from key animal welfare and industry groups and councils.

The discussion paper provides interested stakeholders with an opportunity to comment on a range of proposed measures, identified by the Taskforce, which aim to:

- reduce the current rate of euthanasia for cats and dogs,
- refine the current regulatory framework around the breeding, sale and management of cats and dogs to improve welfare outcomes, and
- promote socially responsible pet ownership through community education.

The discussion paper is available for download from the Division of Local Government, Department of Premier and Cabinet website at: www.dlg.nsw.gov.au.

Submissions will be accepted until 1 July 2012.

After taking into account feedback on the discussion paper, the Taskforce will prepare a report providing recommendations for the consideration of the Ministers later in 2012.

Further information can be obtained by contacting the Division of Local Government on telephone (02) 4428 4100 or by email at dlg@dlg.nsw.gov.au.

CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of Significantly Contaminated Land
(Section 11 of the Contaminated Land Management Act 1997)

Declaration Number 20121112; Area Number 3306

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

This declaration applies to the land that is located at 73-87 Oxide Street, Broken Hill, NSW (Lot 2, DP 9628; Lot 2, DP 224779; Lot 2 in DP 1094682; Lot A, DP 33471; Lots 3 & 4, DP 102488; Lot 1, DP 1097588 and Lot 5 & 6, DP 102487 within the local Government Area of Broken Hill City Council). The land to which this declaration applies is shown on the attached figure.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances ("the contaminants"):

- Petroleum Hydrocarbons (TPH);
- Benzene, Toluene, Ethylbenzene and Xylene (BTEX); and
- Naphthalene.

3. Nature of harm that the contaminants have caused:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- The groundwater is contaminated with separate phase hydrocarbons and dissolved phase hydrocarbons, including benzene;
- The contaminated groundwater may continue to migrate off-site towards commercial and nearby residential areas; and
- Workers undertaking future excavations may be potentially or become accidentally, exposed to volatile fuel vapours.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites,
Environment Protection Authority,
PO Box A290,
Sydney South NSW 1232
or faxed to (02) 9995 5930

by not later than 29 May 2012.

Date: 30 April 2012.

NIALL JOHNSTON,
Manager, Contaminated Sites,
Environment Protection Authority

NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

DISTRICT COURT ACT 1973

District Court of New South Wales

Direction

PURSUANT to section 173 of the District Court Act 1973, I direct that the District Court shall sit in its criminal jurisdiction at the place and time shown as follows:

LOCAL GOVERNMENT ACT 1993

Order

I, the Hon. Don Page, M.P., Minister for Local Government, in pursuance of section 516 (1A) of the Local Government Act 1993, do by this Order determine that for the purpose of the definitions of “boarding house” and “lodging house” in that section the maximum tariffs, exclusive of GST, that

a boarding house or lodging house may charge tariff-paying occupants are:

- (a) Where full board and lodging is provided –
\$323 per week for single accommodation, or
\$538 per week for family or shared accommodation.
- (b) Where less than full board and lodging is provided –
\$215 per week for single accommodation, or
\$359 per week for family or shared accommodation.

Dated this 23rd day of April 2012.

The Hon. DON PAGE, M.P.,
Minister for Local Government

NATIONAL PARKS AND WILDLIFE ACT 1974

Seal Rocks Nature Reserve

Draft Plan of Management

A draft plan of management for Seal Rocks Nature Reserve has been prepared and is on exhibition until 30 July 2012. This plan replaces the amendments in relation to Seal Rocks Nature Reserve exhibited on 2 March 2012, however any comments on those amendments in relation to Seal Rocks will be considered as submissions on this plan.

Copies of the plan are available free of charge from the NPWS Hunter Regional Office, Level 1, 12B Teramby Road, Nelson Bay (phone 4984 8200); the NPWS Great Lakes Area Office, The Ruins Camping Area, Booti Booti National Park, The Lakes Way, Pacific Palms (phone 6591 0300) and on the website: www.environment.nsw.gov.au.

Written submissions on the plan must be received by The Planner, Seal Rocks NR, NPWS, Locked Bag 99, Nelson Bay Delivery Centre NSW 2315 by 30 July 2012.

All submissions received by NPWS are a matter of public record and are available for public inspection upon request. Your comments on this plan may contain information that is defined as “personal information” under the NSW Privacy and Personal Information Protection Act 1998. The submission of personal information with your comments is voluntary.

Description

Land District – Armidale; Council – Guyra

County of Clarke, Parish of Tubbamurra, 320.162 hectares, being Lots 1 and 2, DP 256361; Lots 50, 56, 71, 73, 76, 79, 80, 88, 89, 94, 106, 107, 108 and 109, DP 751482, OEH FIL 11/12867.

PROTECTION OF THE ENVIRONMENT OPERATIONS (WASTE) REGULATION 2005

General Exemption Under Part 6, Clause 51 and 51A

The Excavated Public Road Material Exemption 2012

Name

1. This exemption is to be known as ‘The excavated public road material exemption 2012’.

Commencement

2. This exemption commences on 11 May 2012.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) in writing by notice published in the *NSW Government Gazette*.

Legislation

4. Under the Protection of the Environment Operations (Waste) Regulation 2005 (the Regulation):
 - 4.1. Clause 51 (2) authorises the EPA to grant an exemption in relation to any matter or thing including an activity or class of activities, and
 - 4.2. Clause 51A authorises the EPA to exempt a person from any of the following provisions in relation to

an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:

- the provisions of sections 47 to 49 and 88 of the Protection of the Environment Operations Act 1997 (the Act),
- the provisions of Schedule 1 to the Act either in total or as they apply to a particular activity, and
- the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. In this Notice of Exemption:

- 5.1. The responsible person listed in Column 1 of Table 1 is exempt from the provision/s listed in Column 2 of that table but only:

- in relation to activities involving the relevant waste, and
- where the responsible person complies with the conditions referred to in Column 3 of the table, and
- in the case of a consumer, in relation to the premises where the waste is applied to land as permitted by clause 7.1.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

- 5.2. Where a responsible person complies with the conditions of this Notice of Exemption, the activity referred to in Schedule 1 from which that person is exempt is taken to be a non-scheduled activity for the purposes of the Act.

Table 1

<i>Column 1</i>	<i>Column 2</i>	<i>Column 3</i>
Responsible person	Provisions from which the responsible person is exempt	Conditions to be met by the responsible person
Consumer	section 48 of the Act in respect of clauses 39 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation	all requirements specified in section 7 of this Notice of Exemption

This Notice of Exemption is a general exemption for the purposes of clause 51 (3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Coal tar means the by-product of the thermal processing of coal and means material that has or reasonably is suspected to have present volatile organic contaminants, such as phenols, as well as other toxic materials such as polycyclic aromatic hydrocarbons (PAHs).

Council means the council of a local government area.

Consumer means a person who applies, causes or permits the application to land of excavated public

road material within the definitions of “application to land” in accordance with the Act.

Excavated public road material means any of the following waste materials, being rock, soil, sand, bitumen, reclaimed asphalt pavement, gravel, slag from iron and steel manufacturing, fly and bottom ash, concrete, brick, ceramics and any materials that hold a resource recovery exemption for use in road making activities and that have been excavated during the construction and maintenance of council and RMS public roads and public road infrastructure facilities. This does not include any waste that contains coal tar or asbestos or any waste that is classified as hazardous, restricted solid, special or liquid waste as defined in the Act.

Public Roads means (a) any road that is opened or dedicated as a public road, whether under the Roads Act 1993 (the Roads Act) or any other act or law, and (b) any road that is declared to be a public road for the purposes of the Roads Act

Relevant waste means excavated public road material that meets the requirements of section 7.

Road corridor means land that is used for the purposes of a road or road infrastructure facilities or for maintaining or constructing a road or road infrastructure facilities and that is owned or managed by the RMS or council.

Public Road infrastructure facilities means:

- (a) tunnels, ventilation shafts, emergency accessways, vehicle or pedestrian bridges, causeways, road-ferries, retaining walls, toll plazas, toll booths, security systems, bus lanes, transit lanes, transitways, transitway stations, rest areas and road related areas (within the meaning of the Road Transport (General) Act 2005), and
- (b) associated public transport facilities for roads used to convey passengers by means of regular bus services within the meaning of the Passenger Transport Act 1990, and
- (c) bus layovers that are integrated or associated with roads (whether or not the roads are used to convey passengers by means of regular bus services within the meaning of the Passenger Transport Act 1990), and
- (d) traffic control facilities (as defined by the Transport Administration Act 1988), RMS road safety training facilities and safety works.

RMS means the Roads and Maritime Services of New South Wales.

General conditions

7. This Notice of Exemption is subject to the following conditions:
 - 7.1. The excavated public road material can only be stored within the road corridor at the site where it is to be applied to land.
 - 7.2. The excavated public road material can only be applied to land within the road corridor for public road related activities including road construction, maintenance and installation of road infrastructure facilities. This exemption does not apply to the land application of excavated public road material on any land outside the road corridor.

7.3. The excavated public road material cannot be applied on private land.

7.4. The consumer must land apply the relevant waste within a reasonable period of time.

Exemption Granted

CHRISTOPHER McELWAIN,
Manager, Waste and Resource Strategy,
Environment Protection Authority
by delegation

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the responsible person to ensure that they comply with this exemption.

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (section 142A) or water (section 120) or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material.

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

CONVEYANCERS LICENSING AGENTS ACT 2003

Notification Under Section 64 (1) (b)

I, Iain Armstrong, Manager, Compensation Funds (acting) as a delegate of the Director-General, give notice, under section 64 (1) (b) of the Conveyancers Licensing Agents Act 2003, that the licensees specified in Column One of the Schedule, hold in an account kept at the authorised deposit-taking institution specified in Column Two of the Schedule, the amount of money specified in Column Three of the Schedule, for or on behalf of the person specified in Column Four of the Schedule.

If the money is not paid out of the trust account in which it is held within three months after the date of publication of this notice in the *New South Wales Government Gazette*, the person holding the money will be required to pay it to the Director-General.

IAIN ARMSTRONG,
A/Manager, Compensation Funds,
Delegate of the Director-General,
Department of Finance and Services

PROPERTY, STOCK AND BUSINESS AGENTS ACT 2002

Notification Under Section 98 (1) (b)

I, Iain Armstrong, Manager, Compensation Fund (acting) as a delegate of the Director-General, give notice, under section 98 (1) (b) of the Property, Stock and Business Agents Act 2002, that the licensees specified in Column One of the Schedule, hold in an account kept at the authorised deposit-taking institution specified in Column Two of the Schedule, the amount of money specified in Column Three of the Schedule, for or on behalf of the person specified in Column Four of the Schedule.

If the money is not paid out of the trust account in which it is held within three months after the date of publication of this notice in the *New South Wales Government Gazette*, the person holding the money will be required to pay it to the Director-General.

IAIN ARMSTRONG,
A/Manager, Compensation Funds,
Delegate of the Director-General,
Department of Finance & Services

PROPERTY, STOCK AND BUSINESS AGENTS ACT 2002

Notification Under Section 98 (1) (b)

I, Iain Armstrong, Manager, Compensation Fund (acting), as a delegate of the Director-General, give notice, under section 98 (1) (b) of the Property, Stock and Business Agents Act 2002, that the licensees specified in Column One of the Schedule, hold in an account kept at the authorised deposit-taking institution specified in Column Two of the Schedule, the amount of money specified in Column Three of the Schedule, for or on behalf of the person specified in Column Four of the Schedule.

If the money is not paid out of the trust account in which it is held within three months after the date of publication of this notice in the *New South Wales Government Gazette*, the person holding the money will be required to pay it to the Director-General.

IAIN ARMSTRONG,
A/Manager, Compensation Funds,
Delegate of the Director-General,
Department of Finance & Services

PROPERTY, STOCK AND BUSINESS AGENTS ACT 2002

Notification Under Section 98 (1) (b)

I, Iain Armstrong, Manager, Compensation Fund (acting), as a delegate of the Director-General, give notice, under section 98 (1) (b) of the Property, Stock and Business Agents Act 2002, that the licensees specified in Column One of the Schedule, hold in an account kept at the authorised deposit-taking institution specified in Column Two of the Schedule, the amount of money specified in Column Three of the Schedule, for or on behalf of the person specified in Column Four of the Schedule.

If the money is not paid out of the trust account in which it is held within three months after the date of publication of this notice in the *New South Wales Government Gazette*, the person holding the money will be required to pay it to the Director-General.

IAIN ARMSTRONG,
A/Manager, Compensation Funds,
Delegate of the Director-General,
Department of Finance & Services

PROPERTY, STOCK AND BUSINESS AGENTS ACT 2002

Notification Under Section 98 (1) (b)

I, Iain Armstrong, Manager, Compensation Fund (acting), as a delegate of the Director-General, give notice, under section 98 (1) (b) of the Property, Stock and Business Agents Act 2002, that the licensees specified in Column One of the Schedule, hold in an account kept at the authorised deposit-taking institution specified in Column Two of the Schedule, the amount of money specified in Column Three of the Schedule, for or on behalf of the person specified in Column Four of the Schedule.

If the money is not paid out of the trust account in which it is held within three months after the date of publication of this notice in the *New South Wales Government Gazette*, the person holding the money will be required to pay it to the Director-General.

IAIN ARMSTRONG,
A/Manager, Compensation Funds,
Delegate of the Director-General,
Department of Finance & Services

List of authorised explosives and categories of prohibited explosives in NSW

Under the *Explosives Regulation 2005*

Register of explosives

The publication of this register, containing a list of authorised explosives and categories of prohibited explosives for NSW, is approved by Anne Gardiner, Team Manager, Chemicals Team, WorkCover Authority of NSW, in accordance with clause 8 of the *Explosives Regulation 2005* (E Regulation).

Anne Gardiner
WorkCover Authority of NSW
April 2012

Introduction

WorkCover NSW follows the United Nations system for classifying explosives for transport, as a means of identifying explosive hazards. This classification system categorises explosives into hazard levels by assigning different divisions – ie 1.1, 1.2, 1.3, 1.4, 1.5 and 1.6.

These divisions are further assigned to groups that are compatible with each other and allow safe storage and transport without increasing the risk or hazard associated with the explosives.

The full classification of an explosive is known as its classification code and comprises the hazard division followed by a letter, known as the compatibility group.

The most common hazard divisions encountered in NSW are 1.1, 1.3, 1.4 and 1.5. The most common compatibility groups encountered in NSW are B, C, D, G and S.

The common hazard divisions are:

- Division 1.1 – substances and articles which have a mass explosion hazard.
- Division 1.3 – substances and articles which have a fire hazard with minor blast or projection hazard.
- Division 1.4 – substances and articles which present no significant hazard.
- Division 1.5 – very insensitive substances which have a mass explosion hazard.

The common compatibility groups are:

- B – articles containing a very sensitive primary explosive substance.
- C – an explosive substance used to propel projectiles out of a weapon.
- D – a detonating explosive that can cause mass destruction.
- G – a pyrotechnic substance or article used to give light, create smoke, or give a loud report.
- S – a substance or article packed in a package in a manner that it will not present any significant hazard if it is accidentally functioned within that package.

An example of a ‘most hazardous explosive’ is a detonator that has a classification code of 1.1B. An example of a ‘least hazardous explosive’ is a party popper, in its packaging, which has a classification code of 1.4S.

Clause 8 of the E Regulation provides that WorkCover is the regulatory authority and may register an explosive as an authorised explosive or a prohibited explosive, under the UN classification system outlined above. Clause 9 of the regulation makes it an offence to ‘handle any unauthorised explosive’ and under clause 10 makes it an offence to falsely represent an explosive as authorised.

When WorkCover authorises an explosive, it assigns a classification code according to the UN system **and places the commercial name or trade name, or description, of that explosive on a list, under that classification system.** If that name or description does not appear on the list, the explosive is not authorised.

Fireworks are not authorised if – after checking with WorkCover to determine if the firework name has a corresponding product code on WorkCover’s database – that product code number does not appear on the database.

This register contains a list of commercial names or trade names, or descriptions, of all explosives that are currently authorised for use in NSW, and includes the Commonwealth Defence Explosive Ordnance Classification Listing (DEOCL).

1. Listing by UN number

Under the UN classification system headings of UN number, proper shipping name and classification code, the following table comprises the full listing of commercial or trade names, or descriptions, of the explosives that have been authorised in NSW, in UN number order.

UN number	Proper shipping name	Class	Authorised commercial or trade name or description
0012	CARTRIDGES FOR WEAPONS, INERT PROJECTILE or CARTRIDGES, SMALL ARMS	1.4S	ADCOM CARTRIDGE 9mm BALL 115 GR PARABELLUM

Note: The DEOCL Listing of Defence Explosive Ordnance, as amended from time to time, is deemed to be incorporated into this list.

2. Authorised Commonwealth explosives

2.1 Commonwealth Defence explosives arrangements

The Directorate of Ordnance Safety (DOS) is the technical regulator of Explosive Ordnance storage and transport activities within the Australian Defence Organisation. An important activity of the DOS is the compilation of the DEOCL issued at regular intervals on a restricted basis.

2.2 Civilian contractors

Increasingly, civilian contractors handle defence ordnance. Under a long term Australian Defence Force contract, Thales Australia manufactures rifle ammunition, grenades, aircraft bombs, anti missile shells, large calibre ammunition, demolition charges and training and practice products. Also, the company has a contract to warehouse, maintain and distribute the Australian Defence Force's explosive ordnance. These civilian contractors are not defence personnel or Commonwealth employees, and some of their activities come under the NSW explosives regulatory regime. This makes it necessary to formally recognise the DEOCL list of Explosive Ordnance (which contains over 2400 line items) as explosives authorised under NSW legislation.

2.3 DEOCL list

Accordingly, the DEOCL listing of Explosives Ordnance, as amended from time to time, is now recognised in NSW as forming part of the List of Authorised Explosives under Clause 8 of the E Regulation.

3. Categories of prohibited explosives

The following categories of explosives are prohibited in NSW unless WorkCover has granted an exemption under clause 93 or 94 of the E Regulation or specific approval given on the appropriate licence or fireworks notification form.

3.1 Safety cartridges

A safety cartridge or other munitions is prohibited where:

- a. the bullet is not firmly fixed in the cartridge case
- b. the bullet has a split or cracked case
- c. the bullet has a case that is liable to split or rupture when fired in a properly constructed weapon of a chambering and calibre appropriate to a cartridge of its class
- d. the bullet or other projectile explodes, or contains an incendiary or tracer composition, or contains a lachrymatory, nauseating or toxic substance

but does not include:

- e. a safety cartridge in 3.1 (a), (b) and (c) held under a collector's licence issued by the police if the cartridges are kept separate from cartridges for use or for supply
- f. safety cartridge for use by the Police Service, the Commonwealth or a State or Territory of the Commonwealth, or by the Armed Services
- g. the importing, with the approval in writing of the Regulatory Authority, of a safety cartridge having a bullet or other projectile that contains an incendiary or tracer composition
- h. a safety cartridge having a bullet or other projectile approved in writing by the Regulatory Authority.

3.2 Fireworks

A firework is prohibited where the firework:

- a. contains a composition of a chlorate in admixture with sulphur, a sulphide or phosphorus (other than amorces, a streamer cone or a confetti bomb)
- b. is of such construction that firework composition can escape from it
- c. can explode en masse
- d. explodes either wholly or in part (other than a distress signal, amorces, a snap for a bon-bon cracker, a streamer cone or a confetti bomb)
- e. on ignition may project through the air in an erratic or unpredictable flight
- f. contains arsenic or a compound of arsenic as an ingredient of its composition
- g. does not have displayed on it instructions in the English language relating to the manner in which it should be ignited and the manner in which it is designed to behave
- h. ignites in less than three seconds, or more than 15 seconds, after its wick or touch paper has been ignited in accordance with the instructions displayed on it
- i. after having been set up and ignited in accordance with the instructions displayed on it, behaves otherwise than in accordance with those instructions.
- j. can be ignited or discharged by means other than the lighting of a wick, touch paper or by electric initiation, other than a distress signal, amorces, snaps for bon-bon crackers, streamer cones, model rocket propellant devices and confetti bombs
- k. is a rocket other than a distress signal
- l. is a trick firework
- m. is a display firework as defined by the E Regulation
- n. is a firecracker that can be initiated by striking on the side of a match-box
- o. are aerial salutes larger than 75mm.

Notwithstanding the above, fireworks are not prohibited if:

- i. they are for the purpose of use outside the State if they are exported as soon as practicable to that other State or Territory and evidence of an authority to import from that other State or Territory has been received and a copy is forwarded to the NSW Regulatory Authority, prior to the release of the fireworks
- ii. they are for use under the authority of a fireworks licence appropriately endorsed for the fireworks allowed to be used and are fireworks other than (b), (e), (i), (j), (k), (n) and (o) and are listed under Section 2 of this document
- iii. they are used in accordance with the manufacturer's or supplier's instructions.

3.3 Distress signals

A distress signal is prohibited if it does not comply with AS 2092 (Pyrotechnic marine distress flares and signals for pleasure craft) or an equivalent International Standards Organisation standard.

3.4 Model rockets

A model rocket propellant device is prohibited if it:

- a. contains a composition of a chlorate in admixture with sulphur, a sulphide or phosphorus
- b. is of such construction that ignitable substances can escape from it
- c. may explode either wholly or in part
- d. contains an ignitable substance or ignitable substances exceeding 15 grams in mass
- e. is used for the purpose other than that allowed for by a recognised model rocket club

but does not include:

- f. a model rocket propellant device containing an ignitable substance or ignitable substances not exceeding 62.5 grams in mass received by a person who is a member of a recognised model rocket club
- g. a model rocket propellant device containing an ignitable substance or ignitable substances exceeding 62.5 grams in mass received by a person who is a member of a recognised model rocket club and holds a pyrotechnicians licence endorsed for the use of such devices.

3.5 Liquid oxygen explosive mixtures

A liquid oxygen explosive mixture, which is a mixture of liquid oxygen and a carbonaceous material and is known as a liquid oxygen explosive, is prohibited unless the mixture is created for immediate use as an integral part of a manufacturing process and that process is approved in writing by the Regulatory Authority.

3.6 Unauthorised explosives

Any explosive that does not appear on the list of authorised explosives is a prohibited explosive unless otherwise authorised by WorkCover.

TAMWORTH REGIONAL COUNCIL

ERRATUM

Section 162, Roads Act 1993

Naming of Public Roads

1. The road originally gazetted in the *New South Wales Government Gazette* of 16 January 2009, as 'Shiraz Drive' should be correctly referred to as 'Semillon Drive'.
2. The road originally gazetted in the *New South Wales Government Gazette* of 20 November 2009, as 'Semillon Drive' should be correctly referred to as 'Shiraz Road'.

PAUL BENNETT, General Manager, Tamworth Regional Council, 437 Peel Street, Tamworth NSW 2340. [6449]

TENTERFIELD SHIRE COUNCIL

Local Government Act 1993, Section 553

Extension of Sewer Mains

NOTICE is given in accordance with section 553 of the Local Government Act 1993, by Tenterfield Shire Council that sewer mains have been extended as described in the accompanying Schedule. Properties located within the prescribed distance and are capable of being connected to the new sewer mains will be liable for the annual sewerage charge. Land which is not connected to these mains shall become liable for the sewerage local rate after sixty (60) days from the date of this notice. Land connected before the expiration of the sixty (60) days shall be liable for the local

rate from the date of connection. A separate notice will be issued to affected property owners within 60 days of this notice confirming this notification.

SCHEDULE 1 – WOOD STREET

From existing main within the Wood Street road reserve at the northwest corner of Lot 1, DP 1090851 in an eastern direction for a distance of 63 metres.

SCHEDULE 2 – SIMPSON STREET

From the pump station located within the Simpson Street road reserve crossing to the southern footpath adjacent to the north western corner of Lot 535, DP 751540 in a southern direction for a distance of 30m and south easterly to the manhole on the eastern boundary of Lot 535, DP 751540 then in a southern direction for a distance of 41 m to the northern boundary of the Clifton Street road reserve.

LOTTA JACKSON, General Manager, Tenterfield Shire Council, PO Box 214, Tenterfield NSW 2372. [6450]

TENTERFIELD SHIRE COUNCIL

Local Government Act 1993, Section 553

Extension of Watermains

NOTICE is given in accordance with section 553 of the Local Government Act 1993, by Tenterfield Shire Council that watermains have been extended as described in the accompanying Schedule in Tenterfield. Properties located within the prescribed distance of the new water mains will be liable for water supply service availability charge as from the expiration of twenty-one (21) days after the publication of this notice, or the date of connection of the property to the watermain, whichever is earlier. A separate notice will be issued to affected property owners within 21 days of this notice confirming this notification.

SCHEDULE 1 – PELHAM STREET

From existing main within the Douglas Street road reserve located at the north east corner of Lot 1, DP 586599 in a southern direction for 93.6 metres to the south east corner of Lot 2, DP 586599 within the Laird Street road reserve, then along the northern side of Laird Street road reserve for a distance of 31 metres within the Laird Street road reserve to Lot 22, DP 1169308.

SCHEDULE 2 – COWPER STREET

From existing main within the Mount Lindesay road reserve located at the north east corner of Lot 1, Section 17, DP 758959 in a western direction for 72.7 metres to the existing main located at the south west corner of Lot 22, DP 104776 within the Cowper Street road reserve.

LOTTA JACKSON, General Manager, Tenterfield Shire Council, PO Box 214, Tenterfield NSW 2372. [6451]

LIVERPOOL CITY COUNCIL

Roads Act 1993, Section 10
