SCHEDULE 2

Controlled Allocation Order (various groundwater sources) (No 1) 2013

Terms and Conditions for Registration of Interest Process

Introduction

The NSW Office of Water¹ is conducting a tender process which calls for persons to register their interest in obtaining the right to apply for a water access licence (category aquifer access licence) in a number of groundwater sources that have unassigned water.

Unassigned water exists in groundwater sources where the long term average annual extraction limit set by the water sharing plan is greater than current water requirements. Current water requirements are licensed volumes plus volumes required to meet basic landholder rights².

This document sets out the Terms and Conditions upon which the Registration of Interest process (“**Rol** process”) is to be conducted, and sets out the rights and obligations of each participant.

Important note

The right that is the subject of this Rol process is the right to apply for a water access licence. Should a participant be successful in gaining the right to apply, this does not necessarily mean that a licence will be granted when it is applied for. If successful in gaining the right to apply, the participant will need to lodge a licence application which will be determined consistently with the requirements of the relevant water sharing plan and the *Water Management Act 2000*.

A successful participant’s licence application will also be conditional upon the successful participant complying with these Terms and Conditions.

The successful participant may also need to obtain further approvals to take and/or use the water. These may include, for example, a water supply work approval and/or a use approval under the *Water Management Act 2000* or an approval/consent under the *Environmental Planning and Assessment Act 1979*.

If a licence is granted, prior to taking water the successful participant will also need to ensure that a water supply work is nominated on the water access licence under section 71W of the *Water Management Act 2000* to ensure they are not committing an offence under section 60D, irrespective of which type of approval/consent is held. Successful participants can choose to apply to nominate a work when they apply for the water access licence. As the nomination of a water supply work requires a separate assessment this will add to the assessment time and a special assessment

² In groundwater sources a basic landholder right is, in a practical sense, water taken from the groundwater source for domestic and stock use.

fee may apply. A special assessment fee of \$27.14 per unit share applies for licences with a share component greater than 20 units to a maximum of 120 units.

Overview

- 1.1 The NSW Office of Water will conduct the Rol process under this Order.
- 1.2 The minimum price for the right to apply for a water access licence is \$800 per unit share of water.
- 1.3 As part of this Rol process, each participant will nominate the price per unit share of water they are willing to pay for the right to apply for a water access licence in the relevant water source through their Rol. They will also nominate the number of unit shares that they wish to purchase.

The Rol process

- 2.1 On the day on which the Order is published in the NSW Government Gazette, a notice will be published on the website of the NSW Office of Water (www.water.nsw.gov.au) notifying people of the right to register their interest within 42 days from the date of the Order.
- 2.2 To register interest, a person must:
 - (a) complete the Rol form at Annexure A, and
 - (b) lodge the completed Annexure A form and an application fee of \$150 by post to Customer Programs, PO Box 3720, Parramatta NSW 2124.
- 2.3 The application fee can be paid by bank cheque, personal cheque made out to NSW Office of Water or by completing the credit card details on the Rol form.
- 2.4 If a person is seeking to acquire a right to apply for water access licences in more than one water source they must lodge a separate Rol form for each water source. Each Rol form must be accompanied by a separate application fee.
- 2.5 An Rol must be lodged within 42 days from the date on which the Order is published in the Government Gazette.
- 2.6 Applicants must not engage in any unethical behaviour, or seek to obtain an unfair advantage, in participating in the Rol process. The applicant must comply with the standards of behaviour in Part 4 of the NSW Government Code of Practice for Procurement to the extent that they are relevant.

Note: A copy of the Code is available at www.procurepoint.nsw.gov.au. Part 4 of the Code is extracted at Annexure D.
- 2.7 Lodgement of an Rol will itself be an acknowledgement and representation by the applicant that:
 - (a) the applicant accepts the Terms and Conditions;
 - (b) the applicant agrees not to engage in unethical behaviour, or to seek to obtain an unfair advantage; and
 - (c) the applicant is aware of the requirements in Part 4 of the NSW Government Code of Practice for Procurement, that the applicant will comply with those requirements and that the applicant agrees to provide, on request, access to all relevant information to demonstrate compliance.
- 2.8 If an applicant has failed to comply with the requirements in Part 4 of the NSW Government Code of Practice for Procurement, this failure may be taken into account by the NSW Office of Water when conducting any controlled allocation process pursuant to s65 of the *Water Management Act 2000*. Evidence of collusive tendering may lead to the rejection of some or all Rols,

and applicants involved in such practices may be barred from submitting proposals to the NSW Office of Water in the future.

- 2.9 There may be public disclosure requirements associated with this Rol process and with any Certificate or licence granted pursuant to this Order, including under the *Privacy and Personal Information Protection Act 1988*.

Criteria for selecting successful participants

- 3.1 The right to apply for a water access licence in each water source will be awarded to the person that offers the highest price for that right, subject to the other criteria in Part 3 and the requirements in Part 2.
- 3.2 If two or more persons in respect of the same water source offer the same highest price per unit share of water for the right to apply for a water access licence and the sum of the unit shares applied for by those persons is greater than the available unit shares for that water source under the Order, then the available unit shares will be distributed proportionally between those persons with the same highest price per unit share of water according to the number of shares sought by those persons.
- 3.3 If the shares available under the Order in respect of a water source are not fully exhausted by the persons that offer the highest price per unit share of water in their Rols, then a right to apply for a water access licence in that water source will be awarded to the person that offers the next highest price per unit share of water (subject to 3.2) until the shares available for that water source have been fully allocated under this Order.
- 3.4 The Commissioner for Water³ reserves the right to refuse to consider an Rol at his or her discretion for any reason.

Note. Participants should be aware that:

- (a) for the Sydney Basin Nepean Water Source, it is intended that licences will only be granted in Nepean Management Zone 2; and
- (b) for the Lachlan Fold Belt MDB Groundwater Source, it is intended that licences will only be granted in the Lachlan Fold Belt MDB (Other) Management Zone..

The Rol form makes provision for a zone to be specified in relation to a water source.

Rights and obligations of successful participants

- 4.1. Upon the expiration of the 42 day period, the NSW Office of Water will consider and assess all Rols lodged to determine the highest price per unit share of water offered for the right to apply for a water access licence in each water source.
- 4.2. The Commissioner for Water will:
- (a) determine the successful participants based on the requirements in Part 2 and the criteria set out in Part 3 above; and
 - (b) issue to the successful participants a Certificate under section 65 of the *Water Management Act 2000* in the form of Annexure B ("**the Certificate**") that sets out the price at which the successful participants have won the right to apply for a water access licence and the number of shares.

³ The Commissioner for Water is a Deputy-Director General in the Department of Primary Industries.

- 4.3. The successful participant acquires the right to apply for a water access licence ("**the Licence**") under section 65 when the successful participant pays 100% of the total purchase price specified in the Certificate and the licence application fee.
- 4.4. Subject to payment of 100 % of the total purchase price specified in the Certificate and the licence application fee, the successful participant shall be entitled to apply for the Licence by either completing the licence application form attached to these Terms and Conditions as Annexure C or by completing the application form online on the Office of Water website.
- 4.5. The successful participant must lodge an application for the Licence within 28 days of the date of issue of the Certificate under 4.2 (b) along with the licence application fee of \$561.14 and 100 % of the total purchase price specified in the Certificate. The successful participant must lodge an application for all the shares specified in the Certificate.
- Note: If the successful participant chooses to apply to nominate a work at the same time as they apply for a water access licence, they may also have to pay a special assessment fee.
- 4.6. The total purchase price specified in the Certificate and the licence application fee can be paid by bank cheque or personal cheque made out to NSW Office of Water and posted to Customer Programs, PO Box 3720, Parramatta NSW 2124, by credit card by completing the credit card information on the application form, or by credit card online if making the application for the Licence online.
- 4.7. The successful participant's licence application will be assessed and determined on its merits, consistently with the requirements of the *Water Management Act 2000* and the water sharing plan applicable to the relevant water source and the Department's procedures⁴. The successful participant will be notified in writing of the result of any licence application in accordance with s64 of the *Water Management Act 2000*.
- 4.8. If the successful participant is unable to lodge a water access licence application within this period due to genuine exceptional circumstances that are beyond his or her control, the Office of Water may grant an extension of time. The successful participant must request this extension in writing to the Office of Water before the expiry of the 28 days after the date of issue of the Certificate. The request for an extension must include the length of extension requested and all relevant facts and supporting documentation to justify the request.

Note: The successful participant's application will be assessed under the *Water Management Act 2000* consistently with the requirements of the water sharing plan applicable to the relevant water source and according to the established criteria and procedures of the NSW Office of Water.

It is intended that no licences that specify an extraction component in the Nepean Management Zone 1 in the Sydney Basin Nepean Water Source and the Lachlan Fold Belt MDB (Mudgee) Management Zone in the Lachlan Fold Belt MDB Groundwater Source, as specified in the Water Sharing Plan for the Greater Metropolitan Region Groundwater Sources and the Water Sharing Plan for the NSW Murray Darling Basin Fractured Rock Groundwater Sources respectively, will be granted. This is because these zones are already fully allocated. The water sharing plans already contain some measures that restrict the nomination of a work or the grant of a new work in these zones to ensure that no additional water can be extracted from those zones. Additional measures may be taken to prevent water being able to be extracted from these zones from any licences that are granted as a result of an application by a successful participant.

⁴ For more information on NSW Office of Water procedures go to www.water.nsw.gov.au.

- 4.9. The successful participant can notify the Office of Water that they wish to withdraw their licence application until the date on which of the Minister determines the application under clause 4.7. Notification of intention to withdraw must be in writing. On receiving written notification of the successful participant's intention to withdraw the licence application, the NSW Office of Water will refund 100 % of the total purchase price specified in the Certificate to the successful participant. The licence application fee will not be refunded. The Certificate issued under 4.2(b) will be cancelled.
- 4.10. The withdrawal of a licence application by a successful participant will not constitute a default under these Terms and Conditions.
- Note: If the successful participant chooses to apply to nominate a work at the same time as they apply for a water access licence, they may also have to pay a special assessment fee.
- 4.11. If the licence application is unsuccessful, the NSW Office of Water will refund 100 % of the total purchase price specified in the Certificate to the successful participant at the time of notification of the result of the licence application. The licence application fee will not be refunded.

Default

5.1 The following situations will constitute a default under these Terms and Conditions:

- (a) The successful participant fails to pay 100 % of the total purchase price specified in the Certificate within the required timeframe. A dishonoured cheque will be considered failure to pay; or
- (b) The successful participant fails to lodge a complete water access licence application together with payment of all relevant fees within 28 days of the date of issue of the Certificate, or any later extension date that the NSW Office of Water has agreed to in writing; or
- (c) The successful participant has made a misrepresentation to the NSW Office of Water in the course of lodging their Rol registering their interest or generally in applying for the Licence; or
- (d) The successful participant has engaged in collusive behaviour.

5.2 In the event of a default:

- (a) the successful participant will forfeit to the NSW Office of Water any deposit paid previously; and
- (b) the successful participant will not be entitled to apply for the Licence and the Commissioner for Water shall not be bound by any Certificate that has issued; and
- (c) the Certificate issued will be cancelled; and
- (d) unless (e) applies, the successful participant, and any related parties⁵ will not be entitled to participate in any further Rol process or other process under s65 of the *Water Management Act 2000* to apply for a licence under a controlled allocation order for a period of 2 years from the date of this Order; and
- (e) if there are genuine exceptional circumstances such that the 2 year exclusion period referred to in paragraph (c) above would cause financial

Future action

6.1 If any of the following occur:

- (a) not all of the water specified in the Order is allocated under the Rol process; or
- (b) there is an event of default under clause 5.1; or
- (c) a licence application is refused,

the NSW Office of Water reserves its rights to deal with the water not allocated under this Order and may take action including:

- (d) negotiating with participants; or
 - (e) withholding the water for a period of time; or
 - (f) conducting a future controlled allocation;
- or may take no action.

Registration of interest for the right to apply for a water access licence (category aquifer access licence)

A controlled allocation order declares that the right to apply for a water access licence for a specified water management area or water source is to be acquired by auction, tender or other means as specified in the order.

This is a tender process in the form of a Registration of Interest (RoI) for the right to apply for a water access licence (category: aquifer access licence) in a number of groundwater sources which have unassigned water.

Complete this form to lodge a Registration of Interest (RoI) for the right to apply for a water access licence (category aquifer access licence).

You are advised to read *Terms and Conditions for the Controlled Allocation Order (various water sources) (No 1) 2012* ("**Terms and Conditions**") before registering a RoI. It sets out the terms and conditions upon which the RoI process is to be conducted, and sets out the rights and obligations of each participant. The Terms and Conditions also include information on how to submit a RoI and payment of the application fee.

Lodgement of this RoI form constitutes:

- a) acceptance of the Terms and Conditions;
- b) an acknowledgement and representation by you that you agree not to engage in unethical behaviour, or to seek to obtain an unfair advantage; and
- c) an acknowledgement and representation by you that you are aware of the requirements in Part 4 of the NSW Government Code of Practice for Procurement, that you have complied with those requirements in submitting this RoI and that you agree to provide, on request, access to relevant information to demonstrate compliance.

If successful in gaining the right to apply, the participant will need to lodge an application for a new water access licence under section 61(1)(c) of the *Water Management Act 2000* and pay an application fee within the time period set out in the Terms and Conditions.

If a person is seeking to acquire a right to apply for water access licences in more than one water source they must lodge a separate RoI for each water source. Each RoI must be accompanied by a separate application fee.

If a participant gains a right to apply for a water access licence it does not necessarily mean that a licence will be granted when an application is made.

Application for a new water access licence pursuant to a right acquired following a controlled allocation order

Use this form to apply for a new water access licence pursuant to section 61(1)(c) of the *Water Management Act 2000*. The right to apply for a water access licence can be acquired following a controlled allocation order being made under section 65 of the *Water Management Act 2000*.

A water access licence does not permit the use of water for a particular purpose nor does it permit the holder to construct or use a water supply work. Those rights are conferred by a water use approval and a water supply work approval, respectively.

If a water access licence is granted further approvals may need to be obtained before accessing and using the water.

The NSW Office of Water may request further information in relation to the application.

An application for a water access licence will be assessed and determined on its merits consistent with the requirements of the relevant water sharing plan and the *Water Management Act 2000*. A licence will not necessarily be granted when it is applied for.

CHARITABLE TRUSTS ACT 1993

Notice under Section 15

Proposed Cy-Pres Scheme Relating to the Mearns Massie Endowment Fund

Section 9(1) of the Charitable Trusts Act 1993, permits the application of property cy-pres where the spirit of the original trust can no longer be implemented.

By his will dated 5 December 1935, William Mearns Massie ('the testator') of Dulwich Hill, bequeathed the residue of his estate to 'pay the net income thereof to the Trustees of the Presbyterian Church of Australia in the State of New South Wales in trust to apply such income in the purchase of food and clothing for the orphans in the Burnside Orphans Home (or such of them as the Governing body of the said home shall from time to time nominate) and for no other purpose...'. As at 17 May 2012, the value of the Mearns Massie Endowment Fund ('the Fund') was \$14,273.55.

The NSW Trustee and Guardian ('the trustee') has applied for a cy pres scheme under section 12 of the Charitable Trusts Act 1993 in respect of the Fund. The trustee proposes that the Fund be transferred to the Uniting Church in Australia Property Trust (NSW) to apply the income for the purchase of food and clothing for the children residing in the Burnside Homes. The trustee is also seeking to be replaced as trustee by the Uniting Church in Australia Property Trust.

As there is a charitable trust for the relief of orphans housed in the Burnside Orphan Homes, and as it appears that the original trust purposes have ceased to be suitable and effective, because there are no longer any orphanages (or, it appears, any need for orphanages) in New South Wales, a scheme may be ordered.

The Solicitor General, as delegate of the Attorney General in Charitable Trusts Act 1993 matters, has determined that this is an appropriate matter in which the Attorney General should by order establish a scheme under section 12 of the Charitable Trusts Act 1993 whereby the Uniting Church in Australia Property Trust (NSW) (ARBN 134 487 095) be appointed trustee in place of the current trustee, and that permits the application of the income of the Fund to be applied cy pres for the purchase of food and clothing for the children residing in the residential care homes operated by UnitingCare Burnside.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act 1979 that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate is no longer required.
