CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of Significantly Contaminated Land
(Section 11 of the Contaminated Land Management Act
1997)

Declaration Number 20131106; Area Number 3324

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 (“the Act”):

1. Land to which this declaration applies (“the site”)

This declaration applies to Lot 6, DP 20903 known as 82 Princes Highway, Narooma NSW, in the local government area of Eurobodalla Shire Council. A map of the site is available for inspection at the offices of the Environment Protection Authority, 59 Goulburn Street, Sydney NSW.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances (“the contaminants”):

- Total Petroleum Hydrocarbons (TPH); and,
- Benzene, Toluene, Ethyl benzene, Xylene (BTEX); and,
- Naphthalene.

3. Nature of harm that the contaminants have caused:

The EPA has considered the matters in s.12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- petroleum hydrocarbons have been detected in groundwater at concentrations exceeding guideline levels;

- the source of contamination, the Underground Petroleum Storage System remains at the site;
- the contamination has migrated offsite towards Wagonga Inlet; and,
- there are risks to ecological receptors in Wagonga Inlet and to users of the groundwater if the contamination continues to migrate offsite.

Note: A management plan has been prepared to address risks to workers undertaking excavation work in immediate vicinity of the site.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites,
Environment Protection Authority,
PO Box A290,
Sydney South NSW 1232,
or faxed to (02) 9995 5930,

by not later than 4 weeks from the date of this notice.

Dated: 25 July 2013.

JOHN COFFEY,
Acting Manager,
Contaminated Sites,
Environment Protection Authority

Note:**Management order may follow**

If management of the site or part of the site is required, the EPA may issue a management order under s.14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act 1979 that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
